THE RELATION OF BARNARD COLLEGE TO COLUMBIA UNIVERSITY

According to the agreement made January 19, 1900, between the Trustees of Columbia College in the City of New York and Barnard College, for the purpose of incorporating Barnard College, a college for women, in the educational system of the University, it is provided:

That the President of the University shall be, *ex-officio*, President of Barnard College and a Trustee of Barnard College. He shall preside at the meetings of the Faculty of Barnard College and shall have general supervision and direction of the educational administration of such College as in the other schools of the University.

That the internal administration of Barnard College shall be conducted by a Dean and a Provost who shall be appointed by the President of the University, by and with the advice and consent of the Trustees of Barnard College. In the absence of the Dean or the Provost, an Acting Dean or an Acting Provost may be appointed by the President.

That Barnard College shall be represented in the University Council of Columbia University by its Dean and its Provost, who shall have the right to vote in the University Council upon all questions. The Faculty of Barnard College shall consist of the President, the Dean, the Provost, and all the professors on the staff of the University who give instruction in Barnard College.

That Barnard College shall provide for and maintain such officers of instruction as may, from time to time, be agreed on. Such officers shall be nominated by the Dean of Barnard College, on consultation with the Provost, and with the approval of the Trustees of Barnard College and of the President of the University, and shall be appointed and reappointed by the University according to its custom. Their standing shall be the same in all respects as that of other like officers in the University. For all services rendered in the University by officers so appointed, an equivalent amount of service shall be rendered in Barnard College by other officers of the University of like grade, as may be determined from time to time, with the consent of the officers concerned, by the Dean of the College, on consultation with the Provost, and the President of the University.

That members of the Faculty of Barnard College may be either men or women.

That on and after July 1, 1904, all of the undergraduate instruction for women shall be given separately in Barnard College. Barnard College will assume as rapidly as possible all of the instruction for women in the senior year, without regard to the time limit contained in this section,

and undertakes to maintain every professorship established at its instance, so long as the services of the incumbent thereof or an equivalent therefor shall be rendered in Barnard College; and when Barnard College has adequately provided for its undergraduate work, it will, as its means allow, establish additional professorships in the University, upon foundations, providing for courses which shall be open to men and women, to the end that opportunities for higher education may be enlarged for both men and women.

That the University will accept women who have taken their first degree on the same terms as men, as students of the University, and as candidates for the degrees of Master of Arts and Doctor of Philosophy under the Faculties of Philosophy, Political Science, and Pure Science, in such courses as have been or may be designated by these Faculties, with the consent of those delivering the courses, and will make suitable provision for the oversight of such women.

That the University will confer the degree of Bachelor of Arts or Bachelor of Science upon any student of Barnard College who shall have satisfactorily fulfilled in Barnard College the requirements of the University Statutes for that degree. The courses in Barnard College leading to the degree of Bachelor of Arts or Bachelor of Science shall be determined and administered by its own Faculty, and all examinations for admission to Barnard College and in course shall be conducted under the authority of the Faculty of Barnard College. The diploma shall be signed by the President of the University and by the Dean of Barnard College. The degrees conferred upon the graduates of Barnard College shall be maintained at all times as of equal value with the corresponding degrees conferred upon the graduates of Columbia College. The equivalency of the two degrees shall be maintained in such manner as the University Council may prescribe.

That, so long as this agreement is in force, Barnard College shall grant no degrees. It shall retain the right to grant certificates to students not candidates for a degree, and it shall exercise all other corporate rights and powers which are not delegated to the University by this agreement. But this agreement shall not be deemed a surrender by Barnard College of any powers conferred upon it by charter.

That Barnard College shall retain its separate corporate organization, and that the Trustees of Barnard College shall continue to provide for the financial support thereof.

That the library of the University shall be open to all women students of the University and of Barnard College upon the same terms as to men.

The opportunities open in other schools of the University to students of Barnard College who wish to avail themselves of the advantage of professional training are explained in detail on pages 56-59.

Barnard College

GENERAL STATEMENT

Barnard College offers two distinct liberal courses of undergraduate instruction for women, each of four years' duration, but differing widely in aim and leading to different degrees.

Courses of Study

The literary course requires the study of Latin for entrance and also in college, embraces such general subjects as are deemed essential to a liberal education, requires a major subject equivalent to a three-hour course throughout three years, and leads to the degree of Bachelor of Arts.

The science course allows the substitution of scientific and advanced subjects in place of the entrance Latin, embraces such general courses as are considered essential to any liberal education, requires a major and two minor subjects in pure science amounting to seventy points of college work, and leads to the degree of Bachelor of Science.

A general two-years' course, not leading to a Barnard degree, is arranged to give the cultural basis in literature, languages, history, and natural science for work in certain professional schools of the University. (See p. 55.)

Academic Discipline

Under the statutes all students are admitted subject to the disciplinary power of the University.

ADMISSION

Admission to Barnard College is obtained only by examination, except that in suitable cases the certified credentials of degree-granting institutions may be accepted for the subjects or parts of subjects which they cover.

Except for reasons of weight, candidates for admission to the freshman class must be at least fifteen years of age at the time of matriculation; candidates for admission to advanced standing must be correspondingly older. Every candidate must, before admission, present a certificate of good moral character from her last teacher, or from some properly qualified citizen. Students from other colleges or universities must present certificates of honorable dismissal.

Information regarding admission may be obtained in person, or by mail or telephone, from the Secretary of Barnard College.

ADMISSION TO THE FRESHMAN CLASS

The requirement for admission to the freshman class is proficiency in fourteen and one-half ($14\frac{1}{2}$) units of secondary school subjects, of which some are prescribed and the remainder elective, as specified below. The

unit implies the study of a subject for a time equivalent to five (5) periods a week for one (1) year.

In September, 1915, and thereafter all candidates for admission to the A.B. and B.S. courses at Barnard College, except those who offer Elementary Greek, will be required to offer at least three (3) units in modern foreign languages. To meet this requirement a student may offer Elementary and Intermediate French, or Elementary and Intermediate German, or the elementary examinations in any two of the modern languages in Group II below. For the change in the modern language requirement in college work see page 54.

ENTRANCE EXAMINATIONS¹

Examinations for admission to Barnard College are held each year in January, June, and September. In 1913 they will be held June 16-21 and September 15-20, and in 1914, January 12-17 and June 15-20.

Time

In June, 1913 and 1914, the entrance examinations will be conducted by the College Entrance Examination Board, of which Columbia University is a member, at Barnard College and at a large number of widely distributed points. A list of these points will be published by the Board (Post-Office Sub-Station 84, New York, N. Y.) about March 1. Requests that the examinations be held at particular points should reach the Secretary of the Board not later than February 1.

Place

In September, 1913, and January, 1914, the entrance examinations of Barnard College will be conducted by the Columbia University Committee on Undergraduate Admissions. In September, 1913, they will be held only at the College. In January, 1914, they will be held at the College and at the Polytechnic Preparatory School, Brooklyn.

Every candidate for examination is required to file an application in advance. For the examinations in June, 1913, the application must be filed with the Secretary of the College Entrance Examination Board, Post-Office Sub-Station 84, New York, N. Y. Applications for examination in the United States east of the Mississippi River (also at Minneapolis, St. Louis, and other points on the Mississippi River) must be filed on or before June 2. Applications for examination elsewhere in the United States or in Canada must be filed on or before May 26, and applications for examination at points outside of the United States and Canada must be filed on or before May 12. Requests for blanks forms of application should be addressed to the Secretary of the Board.

Examination

A candidate for a competitive scholarship to be awarded on the basis of the June examinations must, in her application to the Secretary of the

¹ Candidates who find that examinations are fixed for days set apart for religious purposes by the church to which they belong, and who are prevented by conscientious scruples from attending such examinations, are requested to make application to the Committee on Admissions through the Registrar of Barnard College for equitable relief. It should be noted, however, that in case alternative opportunities for taking a given examination are statedly offered, as for instance the January, June, and September entrance examinations, such students are expected to present themselves on the day which is not set apart as a holy day.

College Entrance Examination Board, mention the scholarship for which she is competing.

For the examinations in September, 1913, and January, 1914, applications must be filed with the Registrar of Barnard College on or before September 8 and January 5, respectively. Requests for blank forms of application should be addressed to the Registrar of Barnard College.

Every application for examination in June must be accompanied by a fee of \$5 in the form of a postal order, express order, or draft on New York, to the order of the *College Entrance Examination Board*, for all candidates examined at points in the United States and Canada, and \$15 for all candidates examined at points outside of the United States and Canada.

Every application for examination in September or in January must be accompanied either by a fee of \$5 in the form of a postal order, express order, or draft on New York, to the order of *Barnard College*, by a receipt from the Bursar of Barnard College for an examination fee previously paid, or by the receipt issued by the Secretary of the College Entrance Examination Board for the June examinations immediately preceding. *The latter will be accepted in either September or January but not in both; and a single fee paid to the University will cover only two consecutive series of examinations, namely, January and September or September and January.*

If a late application is accepted either by the College Entrance Examination Board, or by the College, a second fee of \$5 must be paid.

The receipt for the examination fee must be carefully preserved by the candidate and shown (not surrendered) to the supervisor in charge of the examinations as evidence of her right to be admitted to the same. No candidate will be admitted to the September or January examinations upon the receipt of the College Entrance Examination Board, unless that receipt bears the certification of the Registrar of Barnard College that the candidate's application for the examinations has been filed.

A candidate may present herself at any of the scheduled series of examinations, subject to the following restrictions:

- (1) The results of an examination may stand to her credit for twenty-nine months, but no longer.
- (2) She may not present herself at more than four series of examinations except by special consent of the Committee on Undergraduate Admissions.

In making application for examination a candidate must file with the Registrar of Barnard College, for the use of the Committee on Admissions, a statement from the principal of her school or from her last instructor indicating the extent and character of her preparation in each subject in which she applies for examination; a confidential estimate of her character and personality should be sent by the principal to the Registrar. The Committee on Admissions may withhold credit when this requirement is not met, and will give weight, in estimating the results of the candidate's entrance

examinations, to the record of her school performance. Blanks for school records may be obtained from the Secretary.

Candidates taking the examinations must report to the supervisor, in the examination room, fifteen minutes in advance of the first examination which they are to attend.

Barnard College accepts in lieu of its entrance examinations or those of the College Entrance Examination Board,¹ no credentials of any sort except (1) the examination reports of the Education Department of the State of New York showing that the candidate has completed certain courses in a high school in the State of New York and that she has passed the examinations of the Education Department in these subjects (for table of equivalents, see p. 24), (2) the official reports of entrance examinations taken in good faith for admission to other colleges, and (3) certain courses of the Summer Session of Columbia University (see p. 25). *These credentials are accepted only in so far as they cover specifically, and by name, subjects or lettered (or numbered) parts of a subject which are accepted for admission to Barnard College, and state in percentages the grades received in the examinations in such subjects.* Candidates must take the regular entrance examinations in the subjects in which their credentials are not

deemed adequate. Except for reasons of weight credentials are not accepted as covering subjects passed more than twenty-nine months previous to the date at which the candidate intends to begin residence. No certificates from preparatory schools or from preparatory departments of colleges will be accepted in lieu of entrance examinations.

In order to be credited towards entrance, the candidate's credentials, together with (1) the statement of the extent and character of her preparation in each subject offered (see School Records, page 20), and (2) any science note-books or drawings that she has to present, must be in the hands of the Committee on Admissions at least ten days prior to the opening of the term in September or in February.

Candidates for admission on the credentials of the New York State Education Department should notify the Secretary of Barnard College of their intention at least six weeks prior to the opening of the term in September or in February.

The subjects for which the State credentials are accepted and their value in Barnard entrance units are as follows:

units may be admitted to the freshman class with conditions, if, in the judgment of the Committee on Admissions, she is qualified to undertake the work of the class. General deficiency in any prescribed subject will disqualify for admission. Except for reasons of weight a student who has failed to complete a course in a good high school or preparatory school will not be admitted with conditions.

All entrance conditions must be removed within one calendar year from the date of entrance.

A student admitted conditionally or by credentials from another college or from the State Education Department will be held under probation during the first half-year of residence. By Tuesday of the week preceding the Thanksgiving holidays, each department in which students on probation attend will make to the Committee on Instruction a special report of progress in the case of every such student. The Dean, on the recommendation of the Committee on Instruction, will as soon as practicable after the mid-year examinations decide as to each student on probation whether she shall be admitted to full standing, have her period of probation extended, or be dropped from the roll.

The mark C, B, or A, obtained at the end of the first half-year of residence, in a course of a higher grade than the entrance requirement, will be regarded as removing an entrance condition in that subject, unless the condition was incurred in a part of the subject not directly involved in the work of the college course. To remove a condition by college work a mark of at least thirty-five per cent. must have been obtained in an entrance examination. Any condition not so removed must be satisfied by a regular entrance examination for which an application must be filed and a fee paid precisely as required of a candidate for admission. (Regarding the removal of entrance conditions by work in the Summer Session of Columbia University, see page 25.)

While work done in University extension courses is not primarily accepted in lieu of entrance examinations, *entrance conditions* may be removed by a grade of at least C subsequently obtained in the appropriate extension courses. Students in college who desire to avail themselves of this privilege must submit their choice of extension courses for the approval of the Committee on Instruction as a part of their regular college work. (For the general regulations regarding the election of extension courses, see page 53.)

ADMISSION TO ADVANCED STANDING

A candidate for admission to advanced standing, either upon the basis of credentials from other colleges or on examination, must fill out the appropriate application blank to be obtained from the Secretary, and file it with the Barnard College Committee on Admissions at least one week before the first day of the September or January entrance examinations. Each candidate must also present at that time, (1) an official

statement of her academic record including entrance credits, (2) letters from at least two of her instructors in regard to her scholarship and character, (3) an honorable dismissal from the college which she is leaving, and (4) a marked catalogue of that college plainly showing every requirement for admission and every course of instruction with which she is credited.

Every candidate for admission to advanced standing must show that she has attained proficiency in the equivalent of (1) the requirements for admission to the freshman class; (2) all the prescribed studies already pursued by the class to which she seeks admission; (3) as many elective studies as she would have pursued if she had entered the class at the beginning of the freshman year.

She may be admitted notwithstanding deficiencies in some of these studies, but will not be recommended for a degree until she shall have brought all her studies up to the point required for that degree.

The credits granted in any subject to a student admitted with advanced standing may be withdrawn or diminished in amount, if, in pursuing such subject after admission to Barnard College, the student prove that the granting of the credits was wholly or in part unwarranted by her previous work.

No applicant may enter the senior class as a candidate for a degree after October 15 in any year, and no student will receive a degree who has resided less than two full half-years at Barnard College. (See also paragraph 11, page 52.)

Candidates for admission to the freshman class offering by examination more than the required $14\frac{1}{2}$ units may be given credit toward a degree for this extra work, on a basis to be determined by the Committee on Admissions, provided that not more than 18 of the 124 points required for a degree may be gained in this way.

ADMISSION AS SPECIAL STUDENTS

A candidate for admission as a special student must fill out the appropriate application blank to be obtained from the Secretary and file it with the Committee on Admissions at least one week before the first day of the September or January entrance examinations.

Special students in Barnard College are of two classes: matriculated and non-matriculated.

Matriculated special students are women who wish, without taking a degree, to make a serious study of some subject or group of subjects. They must pass the regular examinations for admission to the freshman class and have full credit for fourteen and one-half ($14\frac{1}{2}$) units of the entrance requirements. (See p. 16.) They may, therefore, in event of a change of plan, be credited with such of their courses as may coincide with the courses leading to a degree.

**Matriculated
Special
Students**

Non-matriculated special students must be women of mature age who

wish to pursue chiefly advanced courses of special study. They may be admitted at the discretion of the Committee on Admissions without passing formal entrance examinations; but they must furnish proof that they have at some time pursued the studies included in the matriculation examinations and must satisfy the requirements of the department that they desire to enter. *Candidates desiring to pursue merely elementary courses, as in languages, etc., will not be admitted as non-matriculated special students.*

Ordinarily no work done by a non-matriculated special student may count toward a degree.

Except for reasons of weight, satisfactory to the Committee on Admissions, no one will be received as a special student who is less than eighteen years of age, or who has, within ten months of the time of her application, either been rejected or become deficient as a regular student.

Once admitted to the college, special students will be allowed to select their own courses of study subject to the general approval of the Provost, on the recommendation of the Committee on Instruction, and to the particular approval, for each course selected, of the head of the department in which the course is given.

Each student is required to pursue in each half-year courses amounting to at least eight (8) points, unless excused by the Provost, on the recommendation of the Committee on Instruction, for reasons of special weight.

In the courses which they severally pursue all special students will be held to the observance of the same regulations as to attendance, examination, proficiency, and deficiency as regular students.

All special students will receive a formal statement as to the satisfactory completion of the work that they have taken.

DEFINITIONS OF REQUIREMENTS¹

Specimens of the question papers set by Columbia University may be obtained from the Secretary upon application. The question papers of the College Entrance Examination Board are published annually in book form by Ginn & Company, Boston, Mass.

For a more detailed statement of the requirements in botany and physiography or lists of suitable laboratory experiments in chemistry and physics the reader is referred to the pamphlet of the College Entrance Examination Board containing definitions of the requirements in each subject.

BOTANY (counting one unit)

The candidate should have received training by means of the laboratory method in:

The structure and the more obvious features of the life history of at least ten types among the higher seed plants chosen from the more representative families (*e.g.*, Gramineæ, Liliaceæ, Salicaceæ, Ranunculaceæ,

¹ The relative value of subjects is expressed in units according to the time required for adequate preparation in them; a unit in the sense here used represents a course of five (5) periods weekly throughout an academic year of the preparatory school.

Rosaceæ, Leguminosæ, Cruciferæ, Solanaceæ, Labiataë, Compositæ). In addition to these, the following types are recommended among the remaining lower groups of plants: pine, *Selaginella*; a fern, a moss (*Polytrichum* or *Funaria*); a leafy hepatic, *Marchantia*; a mildew (*Microsphaera*); an agaric, *Vaucheria*, *Spirogyra*; and a protophyte (preferably *Sphaerella*).

Morphology of shoot, root, and seed. This work covers the growth, character, relation, and function of the more important tissues of the stem, leaf, bud, and root; together with a study of the more common variation of these organs. The work on the seed includes the structure and homologies of the principal types, nature of reserve food, the renewal of growth of the seed, and the development of the seedling.

Physiology. This work should cover the essential facts concerning irritability, photosynthesis, respiration, digestion, growth, and reproduction.

Ecology. The natural history of plants should receive considerable attention, and the behavior of plants toward environmental factors (especially light and moisture), dissemination, cross and close pollination, and the more important structural and physiological characteristics of plant formations (hydrophytes, halophytes, mesophytes, and xerophytes) should be included.

As evidence of proper laboratory training and of satisfactory work, a note-book must be submitted. (See Submission of Note-books, page 48).

CHEMISTRY (counting one unit)

The candidate's preparation in chemistry should include:

- a. The study of a standard text-book, to the end that the pupil may gain a comprehensive and connected view of the most important facts and laws of elementary chemistry.
- b. Instruction by lecture-table demonstrations, to be used mainly as a basis for questioning upon the general principles involved in the pupil's laboratory investigations.
- c. Individual laboratory work, comprising at least forty exercises.

An indexed note-book of the experiments must be submitted. (See Submission of Note-books, page 48.)

The following outline includes only the indispensable things which must be studied in the class-room and laboratory. The material is, for the most part, common to all elementary text-books and laboratory manuals. The order of presentation will naturally be determined by each teacher for himself.

OUTLINE.—The chief physical and chemical characteristics, the preparation and the recognition of the following elements together with their principal compounds: oxygen, hydrogen, carbon, nitrogen, chlorine, bromine, iodine, fluorine, sulphur, phosphorus, silicon, potassium, sodium, calcium, magnesium, zinc, copper, mercury, silver, aluminium, lead, tin, iron, manganese, chromium.

More detailed study should be confined to the italicized *elements* (as such) and to a restricted list of compounds such as: water, hydrochloric acid, carbon-monoxide, carbon-dioxide, oxides of nitrogen, nitric acid, ammonia, sulphur-dioxide, sulphuric acid, hydrogen sulphide, sodium-hydroxide, ammonium-hydroxide.

Attention should be given to the atmosphere (constitution and relation to animal and vegetable life), flames, acids, bases, salts, oxidation and reduction, crystallization, combining proportions by weight and volume, calculations founded on these and Boyle's and Charles's laws, symbols and nomenclature, atomic and ionization theory, atomic weights, valency (in a very elementary way), nascent state, natural grouping of the elements, solution (solvents and solubility of gases and solids and liquids, saturation), strength of acids and bases, conservation and dissipation of energy, chemical energy, electrolysis. Chemical terms should be clearly understood, and the pupil should be able to illustrate and apply the ideas they embody. The theoretical topics are not intended to form separate subjects of study, but to be taught only so far as is necessary for the correlation and explanation of the experimental facts.

DRAWING (counting one unit)

The candidate's preparation in drawing should include simple geometrical, plane, and solid figures, simple pieces of machinery, the drawing of simple pieces of architectural ornament (a Greek anthemion, a design of iron scrollwork, etc.), the copying of machinery details, or the copying of still life and simple plant forms, with a fair knowledge of perspective and light and shade as applied in freehand sketching. The candidate should be able to reproduce from a flat copy with enlargement or reduction of size.

Every candidate must present at the time of and as part of the examination in drawing a set of freehand drawings executed during one year's course in a preparatory school and within a period of two years before the time of application for admission.

These drawings should be at least twenty in number and should display the proficiency of the student in the following points:

1. Ability to sketch freehand from dictation with reasonable accuracy and with fairly correct, steady, and clean lines any simple geometrical figure or combination of figures, straight lines, squares and circles, polygons, spirals, or the like.
2. Ability to sketch from the object with reasonable correctness of proportion, structure, and form, geometrical models, simple vases, simple details of machinery, or common objects such as ordinary household furniture and utensils.
3. Ability to sketch from the copy, enlarging or reducing its dimensions, any simple object such as a globe valve, stop-cock, or any ordinary historical ornament such as an acanthus leaf, egg and dart ornament, anthemion, tile pattern, iron scrollwork, or the like.

Correctness of proportion and accuracy in the angles and curves and structural relations of the parts of every figure or object drawn are of the highest importance, and great care should be taken in laying out the drawings, in the use of construction lines, and in the drawing of general masses and contour before the details are begun.

A certain proportion of shade drawings from casts may be included, but they are not required and should not form the majority of the drawings submitted.

All drawings should be of uniform size, and fastened together, not rolled.

In case the candidate has not attended a systematic course of instruction as detailed above she may submit a corresponding set of freehand drawings. (See Submission of Note-books, page 48).

ENGLISH

Elementary (counting three units)

No applicant will be accepted in English whose work is notably defective in point of spelling, grammar, idiom, punctuation, or division into paragraphs.

a. Reading and Practice.—The form of examination will usually be the writing of a paragraph or two on each of several topics, to be chosen by the candidate from a considerable number—perhaps ten or fifteen—set before her in the examination paper. The treatment of these topics is designed to show the candidate's power of clear and accurate expression, and will call for only a general knowledge of the substance of the books. *In every case knowledge of the book will be regarded as less important than the ability to write good English.* In place of a part or the whole of this test, the candidate may present an exercise book, properly certified by her instructor, containing compositions or other written work done in connection with the reading of the books, and prepared in accordance with a list of directions, to be obtained by addressing the Secretary of the University. (See Submission of Note-books, page 48.) In preparation for this part of the requirement, it is important that the candidate shall have been instructed in the fundamental principles of rhetoric.

Candidates intending to take this part of the examination should read the books prescribed for the year in which they propose to submit themselves for examination in this subject.

In 1913, 1914, and 1915, ten units are to be selected, two from each group:

Group I. The *Old Testament*, comprising at least the chief narrative episodes in Genesis, Exodus, Joshua, Judges, Samuel, Kings, and Daniel, together with the books of Ruth and Esther; the *Odyssey*, with the omission, if desired, of Books I, II, III, IV, V, XV, XVI, XVII; the *Iliad*, with the omission, if desired, of Books XI, XIII, XIV, XV, XVII, XXI; Vergil's *Æneid*. The *Odyssey*, *Iliad*, and *Æneid* should be read in English translations of recognized literary excellence.

For any unit of this group a unit from any other group may be substituted.

Group II. Shakspeare's *The Merchant of Venice*; *Midsummer Night's Dream*; *As You Like It*; *Twelfth Night*; *Henry V*; *Julius Cæsar*.

Group III. Defoe's *Robinson Crusoe*, Part I; Goldsmith's *The Vicar of Wakefield*; either Scott's *Ivanhoe*, or Scott's *Quentin Durward*; Hawthorne's *The House of the Seven Gables*; either Dickens's *David Copperfield*, or Dickens's *A Tale of Two Cities*; Thackeray's *Henry Esmond*; Mrs. Gaskell's *Cranford*; George Eliot's *Silas Marner*; Stevenson's *Treasure Island*.

Group IV. Bunyan's *Pilgrim's Progress*, Part I; *The Sir Roger de Coverley Papers* in the *Spectator*; Franklin's *Autobiography* (condensed); Irving's *Sketch Book*; Macaulay's *Essays on Lord Clive* and *Warren Hastings*; Thackeray's *English Humourists*; selections from Lincoln, including at least the two *Inaugurals*, the *Speeches in Independence Hall* and at *Gettysburg*, the *Last Public Address*, and *Letter to Horace Greeley*, along with a brief memoir or estimate; Parkman's *Oregon Trail*; either Thoreau's *Walden*, or Huxley's *Autobiography* and selections from *Lay Sermons*, including the addresses on *Improving Natural Knowledge*, *A Liberal Education*, and *A Piece of Chalk*; Stevenson's *Inland Voyage* and *Travels with a Donkey*.

Group V. Palgrave's *Golden Treasury* ((First Series), Books II and III, with special attention to Dryden, Collins, Gray, Cowper, and Burns; Gray's *Elegy in a Country Churchyard* and Goldsmith's *The Deserted Village*; Coleridge's *The Ancient Mariner* and Lowell's *The Vision of Sir Launfal*; Scott's *The Lady of the Lake*; Byron's *Childe Harold*, Canto IV, and *The Prisoner of Chillon*; Palgrave's *Golden Treasury* (First Series), Book IV, with especial attention to Wordsworth, Keats, and Shelley; Poe's *The Raven*, Longfellow's *The Courtship of Miles Standish*, and Whit-tier's *Snow Bound*; Macaulay's *Lays of Ancient Rome* and Arnold's *Sohrab and Rustum*; Tennyson's *Gareth and Lynette*, *Lancelot and Elaine*, and *The Passing of Arthur*; Browning's *Cavalier Tunes*, *The Lost Leader*, *How They Brought the Good News from Ghent to Aix*, *Home Thoughts from Abroad*, *Home Thoughts from the Sea*, *Incident of the French Camp*, *Hervé Riel*, *Pheidippides*, *My Last Duchess*, *Up at a Villa—Down in the City*.

b. Study and Practice.—This part of the examination presupposes the thorough study of each of the works named below. The examination will be upon subject-matter, form, and structure. In addition, the candidate may be required to answer questions involving the essentials of English grammar, and questions on the leading facts in those periods of English literary history to which the prescribed works belong.

In connection with the reading and study of the required books parallel or subsidiary reading should be encouraged, and a considerable amount of English poetry should be committed to memory. The essentials of English grammar should not be neglected in preparatory study.

The books prescribed for this part of the examination are as follows:

In 1913, 1914, and 1915: Shakspeare's *Macbeth*; Milton's *L'Allegro*, *Il Penseroso* and *Comus*; either Burke's *Speech on Conciliation with America*

or both Washington's *Farewell Address* and Webster's *First Bunker Hill Oration*; either Macaulay's *Life of Johnson* or Carlyle's *Essay on Burns*.

Advanced (counting one unit)

Candidates offering Advanced English will be required to have covered substantially the same ground as that included under English A1-A2, the course prescribed for freshmen. Candidates are examined in the following subjects:

1. English composition, with special attention to correctness of style and orderly arrangement of material. In preparation for this part of the examination, the student should gain a practical acquaintance with the principles of rhetoric as expounded in any good text-book.

2. English literature—the general history from the Anglo-Saxon period to the death of Tennyson, and selected works from the Elizabethan period to the present day. The selected works are: Marlowe's *Edward II*; Shakespeare's *Hamlet*; Milton's *Paradise Lost* (Books I, II, III, and VI); Dryden's *Essay: Of Dramatic Poesy*; Swift's *The Battle of the Books*; Pope's *Iliad* (Books I, VI, XXII, and XXIV); Goldsmith's *She Stoops to Conquer*; Byron's *Childe Harold*; Webster's *Reply to Hayne*; Dickens's *Old Curiosity Shop*.

In examination the candidate will be expected to answer questions on the history of English literature and to write short essays based on topics relating to the works prescribed. In addition she must submit not less than ten essays of at least 500 words each. At least half but not all of these essays should be on topics chosen from the books prescribed. (See Submission of Note-books, page 48.)

FRENCH

a. Elementary (counting two units)

THE AIM OF THE INSTRUCTION.—At the end of the elementary course the pupil should be able to pronounce French accurately, to read at sight easy French prose, to put into French simple English sentences taken from the language of every-day life, or based upon a portion of the French text read, and to answer questions on the rudiments of the grammar, as defined below.

THE WORK TO BE DONE.—During the first year the work should comprise: (1) careful drill in pronunciation; (2) the rudiments of grammar, including the inflection of the regular and the more common irregular verbs, the plural of nouns, the inflection of adjectives, participles, and pronouns; the use of personal pronouns, common adverbs, prepositions and conjunctions; the order of words in the sentence, and the elementary rules of syntax; (3) abundant easy exercises, designed not only to fix in the memory the forms and principles of grammar, but also to cultivate readiness in the reproduction of natural forms of expression; (4) the reading of

from 100 to 175 duodecimo pages of graduated texts, with constant practice in translating into French easy variations of the sentences read (the teacher giving the English), and in reproducing from memory sentences previously read; (5) writing French from dictation.

During the second year the work should comprise: (1) the reading of from 250 to 400 pages of easy modern prose in the form of stories, plays, or historical or biographical sketches; (2) constant practice, as in the previous year, in translating into French easy variations upon the texts read; (3) frequent abstracts, sometimes oral and sometimes written, of portions of the text already read; (4) writing French from dictation; (5) continued drill upon the rudiments of grammar, with constant application in the construction of sentences; (6) mastery of the forms and use of pronouns, pronominal adjectives, of all but the rare irregular verb forms, and of the simpler uses of the conditional and subjunctive.

Suitable texts for the second year are: About's *Le roi des montagnes*, Bruno's *Le tour de la France*, Daudet's easier short tales, La Bédollière's *La Mère Michel et son chat*, Erckmann-Chatrian's stories, Foa's *Contes biographiques* and *Le petit Robinson de Paris*, Foncin's *Le pays de France*, Labiche and Martin's *La Poudre aux yeux* and *Le voyage de M. Perrichon*, Legouv   and Labiche's *La cigale chez les fourmis*, Malot's *Sans famille*, Mariet's *La t  che du petit Pierre*, M  rim  e's *Colomba*, extracts from Michelet, Sarcey's *Le si  ge de Paris*, Verne's stories.

b. Intermediate (counting one unit)

THE AIM OF THE INSTRUCTION.—At the end of the intermediate course the pupil should be able to read at sight ordinary French prose or simple poetry, to translate into French a connected passage of English based on the text read, and to answer questions involving a more thorough knowledge of syntax than is expected in the elementary course.

THE WORK TO BE DONE.—This should comprise the reading of from 400 to 600 pages of French of ordinary difficulty, a portion to be in the dramatic form; constant practice in giving French paraphrases, abstracts, or reproductions from memory of selected portions of the matter read; the study of a grammar of moderate completeness; writing from dictation.

Suitable texts are: About's stories, Augier and Sandeau's *Le gendre de M. Poirier*, B  ranger's poems, Corneille's *Le Cid* and *Horace*, Copp  e's poems, Daudet's *La Belle-Nivernaise*, La Br  te's *Mon oncle et mon cur  *, Madame de S  vign  's letters, Hugo's *Hernani* and *La chute*, Labiche's plays, Loti's *P  cheur d'Islande*, Mignet's historical writings, Moli  re's *L'avare* and *Le bourgeois gentilhomme*, Racine's *Athalie*, *Andromaque*, and *Esther*, George Sand's plays and stories, Sandeau's *Mademoiselle de la Seigli  re*, Scribe's plays, Thierry's *R  cits des temps m  rovingiens*, Thiers's *L'exp  dition de Bonaparte en Egypte*, Vigny's *La canne de jonc*, Voltaire's historical writings.

c. **Advanced** (counting one unit for candidates for the two-years' course preparatory to the School of Journalism only.)

THE AIM OF THE INSTRUCTION.—At the end of the advanced course the pupil should be able to read at sight, with the help of a vocabulary of special or technical expressions, difficult French not earlier than that of the seventeenth century; to write in French a short essay on some simple subject connected with the works read; to put into French a passage of easy English prose; and to carry on a simple conversation in French.

THE WORK TO BE DONE.—This should comprise the reading of from 600 to 1000 pages of standard French, classical and modern, only difficult passages being explained in the class; the writing of numerous short themes in French; the study of syntax.

Suitable texts for the fourth year are: Dumas fils, *La question d'argent*; Hugo, *Quatre-vingt treize*, *Les misérables*; Loti, *Pêcheur d'Islande*; Taine, *L'Ancien régime*; Vigny, *Cinq-Mars*; an anthology of verse.

GERMAN

a. **Elementary** (counting two units)

THE AIM OF THE INSTRUCTION.—At the end of the elementary course in German the pupil should be able to read at sight, and to translate if called upon, by way of proving her ability to read, a passage of very easy dialogue or narrative prose, help being given upon unusual words and constructions, to put into German short English sentences taken from the language of every-day life or based upon the text given for translation, and to answer questions upon the rudiments of grammar, as defined below.

THE WORK TO BE DONE.—During the first year the work should comprise: (1) careful drill upon pronunciation; (2) the memorizing and frequent repetition of easy colloquial sentences; (3) drill upon the rudiments of grammar—that is, upon the inflection of the articles, of such nouns as belong to the language of every-day life, of adjectives, pronouns, weak verbs, and the more usual strong verbs, also upon the use of the more common prepositions, the simpler uses of the modal auxiliaries, and the elementary rules of syntax and word-order; (4) abundant easy exercises designed not only to fix in mind the forms and principles of grammar, but also to cultivate readiness in the reproduction of natural forms of expression; (5) the reading of from 75 to 100 pages of graduated texts from a reader, with constant practice in translating into German easy variations upon sentences selected from the reading lesson (the teacher giving the English), and in the reproduction from memory of sentences previously read.

During the second year the work should comprise: (1) the reading of from 150 to 200 pages of literature in the form of easy stories and plays; (2) accompanying practice, as before, in the translation into German of easy variations upon the matter read, and also in the off-hand reproduction, sometimes orally and sometimes in writing, of the substance of short and easy selected passages; (3) continued drill upon the rudiments of the

grammar, directed to the ends of enabling the pupil first to use her knowledge with facility in the formation of sentences, and secondly to state her knowledge correctly in the technical language of grammar.

Stories suitable for the elementary course can be selected from the following list: Andersen's *Märchen* and *Bilderbuch ohne Bilder*; Arnold's *Fritz auf Ferien*; Baumbach's *Die Nonna* and *Der Schwiegersohn*; Gerstäcker's *Germelshausen*; Heyse's *L'Arrabbiata*, *Das Mädchen von Treppi*, and *Anfang und Ende*; Hillern's *Höher als die Kirche*; Jensen's *Die braune Erica*; Leander's *Träumereien* and *Kleine Geschichten*; Seidel's *Märchen*; Stökl's *Unter dem Christbaum*; Storm's *Immensee* and *Geschichten aus der Tonne*; Zschokke's *Der zerbrochene Krug*.

Among the shorter plays the best available are perhaps Benedix's *Der Prozess*, *Der Weiberfeind*, and *Günstige Vorzeichen*; Elz's *Er ist nicht eifersüchtig*; Wichert's *An der Majorsecke*; Wilhelmi's *Einer muss heiraten*. It is recommended, however, that not more than one of these plays be read. The narrative style should predominate. A good selection of reading matter for the second year would be Andersen's *Märchen* or *Bilderbuch* or Leander's *Träumereien*, to the extent of, say, forty pages; after that such a story as *Das kalte Herz*, or *Der zerbrochene Krug*; then *Höher als die Kirche*, or *Immensee*; next a good story by Heyse, Baumbach, or Seidel; lastly *Der Prozess*.

b. Intermediate (counting one unit)

THE AIM OF THE INSTRUCTION.—At the end of the intermediate course the pupil should be able to read at sight German prose of ordinary difficulty whether recent or classical; to put into German a connected passage of simple English paraphrased from a given text in German; to answer any grammatical questions relating to usual forms and essential principles of the language, including syntax and word-formation; and to translate and explain (so far as explanation may be necessary) a passage of classical literature taken from some text previously studied.

THE WORK TO BE DONE.—The work should comprise, in addition to the elementary course, the reading of about 400 pages of moderately difficult prose and poetry, with constant practice in giving, sometimes orally and sometimes in writing, paraphrases, abstracts, or reproductions from memory of selected portions of the matter read, also grammatical drill upon the less usual strong verbs, the use of articles, cases, auxiliaries of all kinds, tenses and modes (with special reference to the infinitive and subjunctive), and likewise upon word-order and word-formation.

The intermediate course is supposed to be the elementary course plus one year's work at the rate of not less than four recitations a week. Suitable reading matter for the third year can be selected from such works as the following: Ebner-Eschenbach's *Die Freiherren von Gemperlein*; Freytag's *Die Journalisten* and *Bilder aus der deutschen Vergangenheit*—for example, *Karl der Grosse*, *Aus den Kreuzzügen*, *Doktor Luther*, *Aus dem Staat Fried-*

richs des Grossen; Fouqué's *Undine*; Gerstäcker's *Irrefahrten*; Goethe's *Hermann und Dorothea* and *Iphigenie*; Heine's poems and *Reisebilder*; Hoffmann's *Historische Erzählungen*; Lessing's *Minna von Barnhelm*; Meyer's *Gustav Adolfs Page*; Moser's *Der Bibliothekar*; Riehl's *Novellen*—for example, *Burg Neideck*, *Der Fluch der Schönheit*, *Der stumme Ratsherr*, *Das Spielmannskind*; Rosegger's *Waldheimat*; Schiller's *Der Neffe als Onkel*, *Der Geisterseher*, *Wilhelm Tell*, *Die Jungfrau von Orleans*, *Das Lied von der Glocke*, *Balladen*; Scheffel's *Der Trompeter von Säckingen*; Uhland's poems; Wildenbruch's *Das edle Blut*.

- c. **Advanced** (counting one unit for candidates for the two-years' course preparatory to the School of Journalism only)

THE AIM OF THE INSTRUCTION.—At the end of the advanced course the student should be able to read, after brief inspection, any German literature of the last one hundred and fifty years that is free from any unusual textual difficulties, to put into German a passage of simple English prose, to answer in German questions relating to the lives and works of great writers studied, and to write in German a short independent theme upon some assigned topic.

THE WORK TO BE DONE.—The work of the advanced course should comprise the reading of about five hundred pages of good literature in prose and poetry, reference readings upon the lives and works of the great writers studied, the writing in German of numerous short themes upon assigned subjects, independent translation of English into German.

Suitable texts for the fourth year are: Goethe's, Schiller's, Lessing's works and lives.

GREEK

Elementary (counting three units)

a. i. Grammar. The common forms, idioms, and constructions, and the general grammatical principles of Attic Greek prose.

ii. Elementary Prose Composition. Translation into Greek of detached sentences to test the candidate's knowledge of grammatical constructions.

The examination in the two subjects immediately preceding will be based on the first two books of Xenophon's *Anabasis*.

Both parts of Greek a must be passed at one and the same examination.

b. Xenophon. The first four books of the *Anabasis*.

c. Homer. The first three books of the *Iliad* (omitting II, 494–end) and the constructions, poetical forms, and prosody of Homer's *Iliad*.

f. Prose Composition. Translation into Greek of continuous prose based on Xenophon and other Attic prose of similar difficulty.

g. Sight Translation of Prose. Translation into English at sight based on prose of no greater difficulty than Xenophon's *Anabasis*.

Advanced (counting one unit)

Candidates offering Advanced Greek will be required to have covered substantially the same ground as that included under Greek 3-4 with 9-10. In Homer, for which no equivalent will ordinarily be accepted, the minimum requirement will be 1200 lines in addition to the amount offered for the elementary examination. The candidate must also offer Herodotus, Book VI, and Plato's Apology, and in prose composition at least fifteen exercises in Spieker's Greek Prose Composition. If candidates wish to offer equivalents for any of the subjects named, they must designate them when they apply for examination in this subject.

HISTORY**Elementary**

NOTE.—Each of the four divisions, *a*, *b*, *c*, and *d*, counts one unit. Candidates for admission to the A.B., the B.S., or the general two-years' course may offer any one or any two of the divisions without restriction. Candidates for admission to the two-years' course preparatory to the School of Journalism must offer two units and may offer three or four units.

a. Ancient history, including a brief introductory study of the Oriental peoples, and early mediæval history to the death of Charlemagne, with due reference to art, literature, and government.

b. Mediæval and modern history, from the death of Charlemagne to the present time, with due reference to the growth of the state-system.

c. English history, with due reference to social and political development.

d. American history, with the elements of civil government.

On examination a candidate must show such general knowledge of the subject in each division offered as may be acquired from the study of an accurate text-book of not less than three hundred pages. *Since the questions will be so framed as to require comparison and the use of judgment rather than mere exercise of memory on the part of the pupil*, it is recommended that the teacher prescribe a course of supplementary reading of not less than three hundred pages, dealing with the more important periods and events in each division offered. Geographical knowledge will be tested by requiring the location of places, boundaries, and movements on an outline map.

Advanced (counting one unit)

Candidates offering Advanced History will be required to have performed work of the same kind, amount, and quality as that required for History A1-A2—the course prescribed in Barnard College. The work done at school, therefore, should be substantially identical with that course, the nature of which is explained in a syllabus that may be obtained at the University Bookstore. Those candidates who desire to offer history as an advanced subject must have offered for elementary history either *a*

and b or c and d and must present themselves for examination upon the two divisions *which they did not offer as an elementary subject*. The examination will presuppose superior ability on the part of the candidate to understand the significance of historical events, movements, or tendencies, to discern similarities and contrasts, and to combine results. Especial care should be exercised, therefore, in the selection of the supplementary reading on the more important periods and events in each of the two divisions.

As further evidence of proficiency, satisfactory written work must be presented in the form of a note-book, or bound collection of notes (see Submission of Note-books, page 48), which must contain not less than five thousand words on each division offered, and must show practice in at least three of the following exercises:

- (a) Notes and digests of reading outside of the text-books.
- (b) Written recitations requiring the use of judgment, and the application to new questions of knowledge already gained.
- (c) Written parallels between historical characters, events, or periods.
- (d) Brief studies of topics limited in scope, prepared outside the classroom and illustrated by some reference to contemporary material.
- (e) Historical maps or charts showing explorations, migrations, conquests, territorial changes, or social phenomena.

ITALIAN

Elementary (counting two units)

THE AIM OF THE INSTRUCTION.—At the end of the course the pupil should be able to pronounce Italian accurately, to read at sight easy Italian prose, to put into Italian simple English sentences taken from the language of every-day life, or based upon a portion of the Italian text read, and to answer correctly questions on the rudiments of the grammar, as defined below.

THE WORK TO BE DONE.—During the first year the work should comprise: (1) careful drill in pronunciation; (2) the rudiments of grammar, including the conjugation of the regular and the more common irregular verbs, the inflection of nouns, adjectives, and pronouns, and the elementary rules of syntax; (3) abundant exercises illustrating the principles of grammar; (4) the reading and accurate rendering into good English of from 100 to 175 duodecimo pages of graduated texts, with the translation into Italian of easy variations of the sentences read; (5) writing Italian from dictation.

During the second year the work should comprise: (1) the reading of from 250 to 400 pages of modern prose from different authors and of easy poetry; (2) practice in translating Italian into English, and English variations of the text into Italian; (3) continued study of the elements of grammar and of syntax; (4) mastery of all but the rare irregular verb-forms and of the simpler uses of the moods and tenses; (5) writing Italian from dictation.

Suitable texts for the second year are: E. DeAmicis' *Cuore*; G. Giacosa's *Acquazzoni in montagna*; P. Zambri's *Il caporale di settimana*; G. Gozzi's *Poesie e prosce*, scelte da A. Pippi; G. C. Abba's *Da Quarto al Volturmo*; Guido Zalorsi's *Guardare e pensare*; S. Zarira's *Il Signor Io*; A. Stoppani's *Il bel paese*.

LATIN

Elementary

NOTE.—Candidates for admission to the A.B. course must offer 4, 5, and 6, to secure the four prescribed units. Candidates for admission to the B.S. course or the general two-years' course may offer two, three or four units from this subject. Such candidates must offer 3 to secure two units; and, to secure three units, 3 with either 4 or 5. Candidates for admission to the two-years' course preparatory to the School of Journalism may offer three units: 3 with either 4 or 5; or four units: 4, 5, and 6.

3. Second year Latin. It will presuppose reading not less in amount than Cæsar, Gallic War, I–IV, selected by the schools from Cæsar (Gallic War and Civil War) and Nepos (Lives); but the passages set will be chosen with a view to sight translation. The paper will include easy grammatical questions and some simple composition. (See note above.)

4. Cicero and sight translation of prose.

i. Prescribed reading: the oration for the Manilian Law and the oration for Archias.

ii. Sight translation of prose of no greater difficulty than ordinary passages of Cicero's orations.

Candidates must deal satisfactorily with both these parts of the paper, or they will not receive credit for either part.

5. Vergil and sight translation of poetry.

i. Prescribed reading: Vergil's *Æneid* I, II, and either IV or VI at the option of the candidate, with questions on the subject-matter, literary and historical allusions, and prosody.

ii. Sight translation of poetry of no greater difficulty than Vergil's *Æneid*.

Candidates must deal satisfactorily with both these parts of the paper, or they will not receive credit for either part.

6. Advanced prose composition. The examination will demand thorough knowledge of all regular inflections, all common irregular forms, and the ordinary syntax and vocabulary of the prose authors read in school, with ability to use this knowledge in writing simple Latin prose. The words, constructions, and range of ideas called for will be such as are common in the reading of the preparatory course of four years.

The foregoing requirements are in substance identical with those recommended for adoption by the American Philological Association at its annual meeting in December, 1909, viz.:

I. Amount and Range of the Reading Required

1. The Latin reading required of candidates for admission to college, without regard to the prescription of particular authors and works, shall

be not less *in amount* than Cæsar, Gallic War, I–IV; Cicero, the orations against Catiline, for the Manilian Law, and for Archias; Vergil, *Æneid*, I–VI.

2. The amount of reading specified above shall be selected by the schools from the following authors and works: Cæsar (Gallic War and Civil War) and Nepos (Lives); Cicero (orations, letters, and *De Senectute*) and Sallust (Catiline and Jugurthine War); Vergil (*Bucolics*, *Georgics*, and *Æneid*) and Ovid (*Metamorphoses*, *Fasti*, and *Tristia*).

II. Subjects and Scope of the Examinations

1. TRANSLATION AT SIGHT.—Candidates will be examined in translation at sight of both prose and verse. The vocabulary, constructions, and range of ideas of the passages set will be suited to the preparation secured by the reading indicated above.

2. PRESCRIBED READING.—Candidates will be examined also upon the following prescribed reading: Cicero, orations for the Manilian Law and for Archias, and Vergil, *Æneid*, I, II, and either IV or VI at the option of the candidate, with questions on subject-matter, literary and historical allusions, and prosody. Every paper in which passages from the prescribed reading are set for translation will contain also one or more passages for translation at sight; and candidates must deal satisfactorily with both these parts of the paper, or they will not be given credit for either part.

3. GRAMMAR AND COMPOSITION.—The examinations in grammar and composition will demand thorough knowledge of all regular inflections, all common irregular forms, and the ordinary syntax and vocabulary of the prose authors read in school, with ability to use this knowledge in writing simple Latin prose. The words, constructions, and range of ideas called for in the examinations in composition will be such as are common in the reading of the year, or years, covered by the particular examination.

Advanced (counting one unit)

Candidates offering Advanced Latin will be required to have covered substantially the same ground as that included under the course prescribed for freshmen. In Horace, for which no equivalent will ordinarily be accepted, the minimum requirement will be the first and third books of the Odes, with a satisfactory knowledge of the prosody. The candidate must also offer Livy, Book XXI entire, and Book XXII, chapters 41–53, inclusive (or Vergil, *Eclogues*, and selections from Ovid), and in prose composition fifteen exercises from Part I and ten exercises from Part II, of Gildersleeve and Lodge's *Prose Composition*. If candidates wish to offer equivalents for any of the subjects named, they must designate them when they apply for examination in this subject.

MATHEMATICS

Elementary

NOTE.—Candidates for admission to the A.B., the B.S., or the general two-years' course must offer *a*, *i* and *ii* and *c* to secure the two and one-half prescribed units. Candidates for admission to the two-years' course preparatory to the School of Journalism may offer one or more units from the following: Mathematics *a*, *i*, one unit; *a*, *ii*, one-half unit; *c*, one unit.

a. Elementary algebra.

i. The four fundamental operations for rational algebraic expressions; factoring, determination of highest common factor and lowest common multiple by factoring; fractions, including complex fractions, ratio and proportion; linear equations, both numerical and literal, containing one or more unknown quantities; problems depending on linear equations; radicals, including the extraction of the square root of polynomials and of numbers; exponents, including the fractional and negative.

ii. Quadratic equations, both numerical and literal; simple cases of equations with one or more unknown quantities, that can be solved by the methods of linear or quadratic equations; problems depending upon quadratic equations; the binomial theorem for positive integral exponents; the formulas for the *n*th term and the sum of the terms of arithmetic and geometric progressions, with applications.

It is assumed that pupils will be required throughout the course to solve numerous problems which involve putting questions into equations. Some of these problems should be chosen from mensuration, from physics and from commercial life. The use of graphical methods and illustrations, particularly in connection with the solution of equations, is also expected.

c. Plane geometry.

The usual theorems and constructions of good text-books, including the general properties of plane rectilinear figures; the circle and the measurement of angles; similar polygons; areas; regular polygons, and the measurement of the circle; the solution of numerous original exercises, including loci problems; applications to the mensuration of lines and plane surfaces.

Advanced (counting one-half, one, or one and one-half units)

NOTE.—A candidate may offer one or more of the following subjects, each of which is equivalent to one-half unit.

For admission to the college course in Analytic Geometry in the freshman year, the student must have offered Plane Trigonometry at entrance and must take in the freshman year those parts of Mathematics A the equivalents of which were not offered at entrance.

b. Advanced algebra. Permutations and combinations, limited to simple cases; complex numbers, with graphical representation of sums and differences; determinants, chiefly of the second, third, and fourth orders, including the use of minors and the solution of linear equations; numerical equations of higher degree, and so much of the theory of equa-

tions, with graphical methods, as is necessary for their treatment, including Descartes's rule of signs and Horner's method, but not Sturm's functions or multiple roots.

d. Solid geometry.

The usual theorems and constructions of good text-books; including the relations of planes and lines in space; the properties and measurements of prisms, pyramids, cylinders, and cones; the sphere and the spherical triangle; the solution of numerous original exercises, including loci problems; applications to the mensuration of surfaces and solids.

f. Plane trigonometry.

Definitions of relations of the six trigonometric functions as ratios, circular measurement of angles; proofs of principal formulas, in particular for the sine, cosine, and tangent of the sum and the difference of two angles, of the double angle and the half angle, the product of expressions for the sum or the difference of two sines or of two cosines, etc.; the transformation of trigonometric expressions by means of these formulas; solution of trigonometric equations of a simple character; theory and use of logarithms (without the introduction of work involving infinite series); the solution of right and oblique plane triangles, and practical applications.

MUSIC (counting one unit)

The candidate may offer either *a* or *b*.

a. **Musical Appreciation** (counting one unit)

The candidate is expected to have:

1. A general knowledge of the principal musical forms—song, classic dance, fugue, sonata (all movements), symphony—and of their historical development.

2. In 1913 a general knowledge of the lives and environment of at least five of the following composers: Handel, Gluck, Haydn, Weber, Mendelssohn, Schumann, Wagner, Verdi, Brahms, Tschaikowsky, Grieg, MacDowell.

3. ¹Familiarity with certain designated works. The works set for 1913 are:

<i>Bach:</i>	Prelude II and Fugue II, Book I, Well-Tempered Clavichord. Gavotte from Sixth English Suite.
<i>Handel:</i>	The Hallelujah Chorus.
<i>Haydn:</i>	Slow Movement from "Emperor" Quartet (op. 76, No. 3).
<i>Mozart:</i>	Symphony in G Minor (entire).

¹ The examination in 3 will be held only in September and in January, and will be open only to candidates who have passed the examination in 1 and 2.

<i>Beethoven:</i>	Sonata (op. 31, No. 3, entire). Slow Movement from Second Symphony. First Movement from Seventh Symphony.
<i>Schubert:</i>	First Movement from Unfinished Symphony. Song, "The Erl-King." Song, "Hark, Hark, the Lark."
<i>Mendelssohn:</i>	Overture to "Midsummer Night's Dream."
<i>Chopin:</i>	Ballade (op. 47). Polonaise (op. 26, No. 1). Nocturne (op. 37, No. 2).
<i>Schumann:</i>	Allegro from Faschingsschwank (op. 26, No. 1). Song, "Im wunderschönen Monat Mai."
<i>Wagner:</i>	Overture to "Tannhäuser." Prize Song from "Die Meistersinger."

In the examination in 3 the candidate will be expected to identify characteristic portions of the works set, when played by the examiner, and to give intelligent information concerning the form and character of the works themselves. The test will not require ability to perform or to read from printed music.

b. Harmony (counting one unit)

The candidate should have acquired:

1. The ability to harmonize, in four vocal parts, simple melodies of not fewer than eight measures, in soprano or in bass—these melodies will require a knowledge of triads and inversions, of diatonic seventh chords and inversions, in the major and minor modes; and of modulation, transient or complete, to nearly-related keys.

2. Analytical knowledge of ninth chords, all non-harmonic tones, and altered chords (including augmented chords). [Students are encouraged to apply this knowledge in their harmonization.]

It is urgently recommended that systematic ear-training (as to interval, melody, and chord) be a part of the preparation for this examination. Simple exercises in harmonization at the pianoforte are recommended. The students will be expected to have a full knowledge of the rudiments of music, scales, intervals, and staff-notation, including the terms and expression-marks in common use.

PHYSICS (counting one unit)

The candidate should be familiar with the elementary principles of physics and some of their practical applications and should be able to solve simple numerical problems. The preparation of the candidate should include:

a. The study of one of the standard text-books in use in secondary schools.

b. Instruction by lecture-table demonstrations in which the phenomena of physics are shown and the principles qualitatively illustrated.

c. Individual laboratory work, comprising at least thirty exercises. A suitable selection of experiments may be made from the list published by the College Entrance Examination Board. An indexed note-book of the experiments must be submitted. (See Submission of Note-books, page 48.)

PHYSIOGRAPHY (counting one unit)

NOTE.—This is identical with the subject called Geography by the College Entrance Examination Board.

The candidate's preparation in physiography should include the study of one of the modern text-books by Davis, Tarr, Dryer, or Gilbert and Brigham, together with an approved laboratory and field course of at least forty exercises actually performed by the candidate. Each division of the subject should receive approximately the same proportion of attention in the laboratory as in the class-work. It is suggested that the exercises be divided somewhat as follows: Earth as a Globe, 5; Ocean, 5; Atmosphere, 12; Land, 18. An indexed note-book containing the record of these exercises must be submitted. (See Submission of Note-books, page 48.)

SPANISH

Elementary (counting two units)

THE AIM OF THE INSTRUCTION.—At the end of the course the pupil should be able to pronounce Spanish accurately, to read at sight easy Spanish prose, to put into Spanish simple English sentences taken from the language of every-day life, or based upon a portion of the Spanish text read, and to answer questions on the rudiments of the grammar, as defined below.

THE WORK TO BE DONE.—During the first year the work should comprise: (1) careful drill in pronunciation; (2) the rudiments of grammar, including the conjugation of the regular and the more common irregular verbs, the inflection of nouns, adjectives, and pronouns, and the elementary rules of syntax; (3) exercises containing illustrations of the principles of grammar; (4) the reading and accurate rendering into good English of from 100 to 175 duodecimo pages of graduated texts, with translation into Spanish of easy variations of the sentences read; (5) writing Spanish from dictation.

During the second year the work should comprise: (1) the reading of from 250 to 400 pages of modern prose from different authors; (2) practice in translating Spanish into English, and English variations of the text into Spanish; (3) continued study of the elements of grammar and syntax; (4) mastery of all but the rare irregular verb-forms and of the simpler uses of the moods and tenses; (5) writing Spanish from dictation.

Suitable texts for the second year are: Valera's *El pájaro verde*; Alarcón's *El final de Norma*, *El capitán Veneno*; Valdès's *José*; Galdós's *Doña Perfecta*; *Marianela*; Padre Isla's version of *Gil Blas*; Carrion and Aza's *Zaragüeta*.

ZOÖLOGY (counting one unit)

The following outline includes the principles of zoölogy which are indispensable to a general survey of the science. It is planned for a full year's course. It is not intended to indicate order of study of the topics—this must be left to the teacher and the text-book.

1. The general natural history—including general external structure in relation to the adaptations, life histories, geographical range, relations to other plants and animals, and economic relations—of common vertebrates and invertebrates so far as representatives of these groups are obtainable in the locality where the course is given. The types suggested are a mammal, bird, lizard, snake, turtle, newt, frog, dogfish or shark, bony fish, clam, snail, starfish, earthworm, planarian, hydra, sea-anemone, paramoecium. In the case of arthropods, pupils should become familiar with common crustaceans, spiders, myriapods, and insects representing at least five orders. Actual examination of common animals with reference to the above points should be supplemented by reading giving natural-history information.

It is not expected that there will be time for making extensive note-books on the natural-history work; rather will the work in this line take the form of laboratory demonstrations. So far as time permits, drawings and notes should be made. The note-book mentioned below should contain at least drawings on the external structure of four animals not studied under Section 3, preferably two insects, a mollusk, and a second vertebrate.

2. The classifications of animals into phyla and leading classes (except the modern subdivisions of the worms) and the great characteristics of these groups—in the case of insects and vertebrates the characteristics of the prominent orders. The teaching of classification should be by practical work so as to train the pupil to recognize animals and to point out the chief taxonomic characteristics. The meaning of species, genera, and larger groups should be developed by constructive practical work with representatives of insect or vertebrate orders.

3. The general plan of external and internal structure, not the anatomical minutiae, of one vertebrate (preferably frog or fish) in general comparison with the human body; an arthropod (preferably a decapod); an annelid (earthworm or *Nereis*); a coelenterate (hydroid, hydra, or sea-anemone); a protozoön (a ciliate, and amœba when possible). In place of any of the above types not locally available there may be substituted a second vertebrate, an insect, a mollusk, or an echinoderm. Tissues; the study of which is recommended as optional,¹ should be examined first

¹ Topics marked "optional" are regarded as desirable for the best high-school zoölogy but will not be required in examinations.

with the unaided eye, in such a structure as a frog's leg, and then with a microscope to demonstrate the relations of cells and intercellular substance in epithelium and cartilage and, if possible, in other tissues. The functions of the chief tissues and their positions in the body of a vertebrate should be pointed out.

4. (a) The general physiology of above types, involving the essentials of digestion, absorption, circulation (respiration), cell-metabolism, secretion, excretion, and nervous functions. This should apply comparatively the essentials of elementary work in human physiology. Demonstrations and experiments, such as are suggested in high-school text-books on human physiology, should be introduced, or recalled if not previously well presented in elementary physiology, in connection with discussion of the chief functions. As far as practicable structure and function should be studied together.

(b) Comparison of the general life-processes in animals and plants (in connection with botany if zoölogy is first studied).

5. The very general features of asexual reproduction of a protozoön (preferably *Paramæcium*); alteration of generations in hydroids; reproduction and regenerations of *Hydra*; the very general external features of embryological development in a fish or frog; and (*optional*) the general cellular nature (not centrosomes and the like) of germ-cells, fertilization and cell-division in developing eggs should, as far as possible, be demonstrated and briefly described. Also, the most interesting features of development should be pointed out in the case of other animals studied.

6. The prominent evidence of relationship, suggesting evolution, within such groups as the decapods, the insects, and the vertebrates should be demonstrated. A few facts indicating the struggle for existence, adaptation to environment, variations of individuals, and man's selective influence should be pointed out; but the factors of evolution and the discussion of its theories should not be attempted.

7. (*Optional*.) Some leading facts regarding the epoch-making discoveries of biological history and the careers of such eminent naturalists as Darwin, Huxley, Pasteur, and Agassiz should be presented.

The above outline of a course in general zoölogy should be developed on the basis of a course of laboratory study guided by definite directions. This should be supplemented by the careful reading of at least one modern elementary text-book in general zoölogy. At least two-thirds of the time should be devoted to the practical studies of the laboratory. If good nature-studies have not preceded the course in high-school zoölogy, pupils should be encouraged to do supplementary work in the line of natural history. A note-book with carefully labeled outline drawings of the chief structures studied anatomically (Section 3), and the drawings mentioned under natural history (Section 1), and with notes on demonstrations and in explanation of drawings, with dates and an index, must be submitted. It will be graded as one-third of the examination. (See Submission of Note-books, page 48.)

SUBMISSION OF NOTE-BOOKS, DRAWINGS, ETC.

All work submitted must be duly certified to in ink by the teacher in the following form:

Teacher's Certificate

..... School
..... 19....

I certify that has personally performed, as recorded by her in this note-book, experiments in the laboratory of the School, during the year

The laboratory course has occupied time equal to.....hours of 60 minutes each.

Signed.....
Instructor in.....

The teacher may here record the final grade on this laboratory work of per cent.

Drawings should bear a similar certification, or, in case of work not done under instruction, should be accompanied by the candidate's own signed declaration. Drawings must be submitted at the time of examination. Candidates desiring their return should apply after the June examinations to the Secretary of the College Entrance Examination Board, after the September and January examinations to the Chairman of the University Committee on Undergraduate Admissions. Candidates submitting drawings with the credentials of the State Education Department should send them to the Secretary of Barnard College at least ten days prior to the opening of the term, and should apply to the Secretary of Barnard College for their return.

In June candidates taking the examinations in botany, chemistry, physics, geography, or zoölogy should forward their laboratory note-books in these subjects *directly to the Secretary of Barnard College*. In September or in January candidates taking the examinations in botany, chemistry, physics, physiography, or zoölogy should submit their note-books *to the proctor in the examination room*. Candidates desiring the return of these note-books should apply to the Chairman of the University Committee on Undergraduate Admissions. Candidates submitting laboratory note-books with the credentials of the State Education Department should send them to the Secretary of Barnard College at least ten days prior to the opening of the term, and should apply to the Secretary of Barnard College for their return.

English exercise books submitted in lieu of examination in English a (Reading and Practice), advanced English essays, or advanced history note-books should be sent to the Secretary of the University at least two weeks before the examinations begin. Within ten days the candidate will be informed whether or not the work submitted has been accepted. Candidates desiring the return of their history note-books should apply to

the Chairman of the University Committee on Undergraduate Admissions. English exercise books will not be returned to the writers.

All note-books uncalled for one year from the date of submission will be destroyed.

REGISTRATION AND ENROLMENT

All properly qualified students, with the exception of those classed as non-matriculated special students (see p. 27), may matriculate at Barnard College either as candidates for a degree or as special students who are permitted to attend such courses as they are qualified to take but who are not enrolled as candidates for a degree.

Matriculation

Before attending any academic exercise every student must comply with the regulations in regard to registration and payment of fees. She must present herself in person to furnish the information necessary for the College records.

Registration

Every new student must also at the time of registration file a statement of the courses which the Provost, on the recommendation of the Committee on Instruction, has authorized her to pursue. Students already in College are required to give notice of their choice of elective courses for the ensuing year to the Registrar on or before Friday, April 25, 1913. Proper blanks for this purpose will be provided by the Registrar's office. Students should not confuse the filing of elective blanks with registration.

Enrolment for Courses

The office of the Registrar will be open for registration from Wednesday, September 17, to Tuesday, September 23, 1913, and on Monday and Tuesday, February 2 and 3, 1914. New students may register also on the day following each of these periods.

Students registering later must pay an additional fee of \$5. They may, however, if unable through no fault of their own to complete their registration, file a provisional statement within the statutory period. Students will be held directly accountable for absences incurred owing to late registration.

Every student who holds a scholarship must present her scholarship certificate to the Bursar at the time of registration.

The Dean, on the recommendation of the Committee on Instruction, may for reasons of weight grant a leave of absence to a student in good standing.

Leave of Absence

An honorable discharge is granted to any adult student in good standing, who may desire to withdraw from the College; a minor must submit the written assent of her parents or guardians.

Honorable Dismissal

GENERAL STATEMENT REGARDING FEES AND THE REGULATIONS GOVERNING THEIR PAYMENT

All fees are payable in advance at the Bursar's Office. Every student who fails to register within the limits of time fixed by the regulations of

the University shall be permitted to register only with the consent of the Dean, and by the payment of an additional fee of \$5. Students who enter late are required to pay the full charge for tuition for the half-year in which they register.

For an examination or any single series of examinations taken at any other time than at the conclusion of a course actually attended a fee of \$5 is charged.

The registration or matriculation fee must be paid at the time of entrance before an official record of a student's attendance can be noted.

The Dean may withdraw the privileges of any student who is delinquent in the payment of fees.

Checks should be made payable to the order of Barnard College, and addressed to the office of the Bursar.

Students are requested in cases of withdrawal from the College during the academic year to notify the Registrar in writing without delay. No

Withdrawal application for a return of fees can be considered unless such notice is given at the time of withdrawal.

FEES

For matriculation or registration	\$ 5 00
Required of all students at entrance. This fee is payable but once and is never refunded.	
For late registration (see p. 49)	5 00
For tuition , payable at the beginning of each half-year	75 00
Students not candidates for a degree are charged at the rate of \$7.50 a half-year for each point of instruction, with a maximum fee of \$75 for each half-year. If the entire fee is less than \$100.00 the whole must be paid upon registration.	
For examination , payable in each case before the examination is held:	
For entrance (see p. 20)	5 00
For any examination or single series of examinations taken at any other time than at the conclusion of a course actually attended, whether taken prior or subsequent to admission	5 00
For the degree	15 00
For laboratory work	
Botany (Courses 51, 52, 53, 54, 55, 56), each course	1 25
Botany (Courses 151, 152, 153, 154, 156, 158, 159, 160, 161, 162), each course	2 50
Chemistry (Courses 5, 6), each course	2 00
Chemistry (Courses 43, 44), each course	7 50
Chemistry (Courses 63, 64), each course	6 00
Chemistry (Courses 105, 106, 145, 146), each course	10 00

PROGRAM OF STUDIES

Required of every student.	

DORMITORY FEES

Deposit	\$15 00
Payable in advance to secure assignment of room, and held until final closing of accounts for the year as security for damage to rooms, fittings, or furniture, or for any other indebtedness.	
Electricity, charged for by meter.	
Board	225 00
Payable in two equal instalments in advance, on or before taking possession of room, and on February 1.	
Rent	
Payable in two equal instalments in advance, on or before taking possession of room, and on February 1.	
Single rooms	140-270 00
Two-room suites (for one person)	350-385 00
Three-room suites (for two persons)	440-470 00
Private bath (for one, two, or three persons)	50 00

ESTIMATED NECESSARY EXPENSES

Board and single room, \$365 to \$495 for the academic year.
 Electricity, \$5.
 Matriculation fee, \$5.
 Annual tuition fee, \$150.
 Gymnasium fee, \$7.
 Text-books, from \$10 to \$20 each year.
 Final examination for the degree, \$15.

THE PROGRAM OF STUDIES

Upon satisfactory completion of a curriculum arranged on one of the plans to be described below (pp. 54-55) the student is recommended by the Faculty of Barnard College to the Trustees of Columbia University for the degree of Bachelor of Arts or Bachelor of Science.

The principles of the program of studies are as follows:

I. The requirement for graduation is 124 points. The term point usually signifies the satisfactory completion of work requiring attendance at class one hour or in a laboratory two hours a week for one half-year.

2. Studies are either prescribed *i.e.*, obligatory upon all candidates for a degree, or elective, *i.e.*, to be taken, with certain restrictions, at the pleasure of the student.

3. Prescribed studies, with the exception of Economics A, must be taken as far as practicable during the first two years of residence; and subjects taken in college which are continuations of subjects offered at entrance must be taken as far as possible in the first year.

4. No courses other than those specified in the Announcement may be taken except by students specially qualified to pursue them with advantage, and with the consent of the Provost, on the recommendation of the Committee on Instruction.

5. No combination of courses amounting to less than 12 or more than 16 points may be made in any half-year without the consent of the Provost, on the recommendation of the Committee on Instruction.

6. No credit will be given for a one-hour course, unless it is taken in connection with and as a supplement to a cognate course.

7. No more than four hours of class work, or its equivalent in laboratory work, or seven hours of class work and laboratory work combined may be taken on the same day.

8. A major subject of at least 18 points, exclusive of prescribed work, must be taken under some one department before graduation.

9. Admission to courses depends upon completion of the prerequisites as stated for each course separately. In all cases the requirements as to prerequisites for any course must be completed before the beginning of the half-year in which the course is given. Where no prerequisite is stated and where no limitation is noted the course may be taken and counted for a degree by any student of the college.

10. To be recommended for a degree, a student must have made at least 84 points in actual college residence, and at least 24 of these in Barnard College. The Faculty has power to suspend this rule in individual cases; but a statute of the University forbids the granting of a degree to any person who has not been a member of the University for a full academic year, *i.e.*, two half years. (See also the fourth paragraph on page 27.)

11. All requirements for a degree must be fulfilled by the candidate within six years from the time of her first matriculation as a freshman in college, whether at Barnard or elsewhere; within four and a half years from similar matriculation as a sophomore; within three years from matriculation as a junior; and within one and a half years from similar matriculation as a senior. If the candidate fails to satisfy the requirements within the time here specified, she is to lose credit for all the points gained by her toward the degree, unless, in individual cases, the Faculty shall otherwise direct.

12. No change of program, either by adding or by dropping a course, may be made by a student without the written consent of the Provost, on recommendation of the Committee on Instruction. Except on the initiative of the departments or of the Committee on Instruction, such

change will be allowed only in the third week after the opening of the first half-year and in the two weeks preceding the opening of the second half-year. Applications by students for change of program for the first half-year must be filed during the second week of that half-year; applications for change of program for the second half-year must be filed before that half-year begins. Until action is taken upon the application, the student must attend the courses originally named in her program.

13. The election of specific courses in Extension Teaching or in a Summer Session at Columbia University or elsewhere must be approved by the Committee on Instruction of Barnard College. No student who has received a grade of D or F during the preceding academic year will be allowed to count more than 6 points of work taken in a summer session, unless the Committee on Instruction shall otherwise decide. In no case may more than three courses or 8 points of work be counted in a summer session in any one year. No summer session course that is passed with a grade below C will be credited toward a Barnard degree.

14. Courses in Extension Teaching approved by the Committee on Instruction may be credited toward the degrees of A.B. and B.S. for matriculated students registered in Extension Teaching who maintain a grade at least of C.

Students of Barnard will be allowed to attend extension courses which are approved by the Committee on Instruction, and to count them toward the degrees of A.B. and B.S. under the following regulations:

- a. The election of extension courses must be approved by the Committee on Instruction and by the Director of Extension Teaching.
- b. Students will not be allowed to exceed a total of 16 points, including the points of extension courses, at one time, save with the special permission of the Committee on Instruction, for reasons of weight.
- c. Students desiring to count these courses toward the degrees of A.B. and B.S. must obtain in them a grade at least of C.

Before final choice of elective studies, all students should consult their advisers (see p. 59), the Committee on Instruction, and, in case of any doubt, the instructors in charge of particular courses as well. Electives must be chosen on some consistent plan. Conflicts between courses falling at the same hours are to be avoided by careful study of the Scheme of Attendance at the end of this volume, which has been drawn up with a view to making possible for every one the selection of a reasonable number of harmonious elective courses that shall not conflict in hours with each other or with prescribed courses. It often happens that some of the courses of one department form valuable supplements to certain courses of another, so that combinations of work under two or more departments are very desirable. In all such cases the best selections can be made only after consultation with officers of one or more of the departments concerned. This applies particularly to the major subject of 18 points.

I THE PROGRAM OF STUDIES FOR THE DEGREE OF
BACHELOR OF ARTS

Unless their equivalents have been offered for admission the following courses are prescribed:

English A and B	12 points
French A and German A (see new requirements below)	12 "
History A	6 "
Latin A	6 "
Mathematics A	6 "
Philosophy A	6 "
Physical Education A and B	4 "

Major subject of	18 "
Free electives to complete the total of	124 "

New Requirements in Modern Languages

Students who enter Barnard College in 1913, or 1914, and who have offered at entrance at least three (3) units in modern languages (see p. 17), have the option of satisfying, in place of the old requirements above stated, the following new requirements:

No modern language course in college will be prescribed. Before being registered as seniors, all students, except those who have offered Greek at entrance or who have taken Greek 1-2 in college, must satisfy the departments of Romance Languages and Germanic Languages that they have a working knowledge of French and German. In special cases, with the consent of the Committee on Instruction, Spanish or Italian may be substituted for French.

As a rule the departmental test will take the form of an oral examination in translation at sight. It may be taken at any time during the college course and must be taken before May 1 of the junior year.

A student who offers Greek at entrance or who takes Greek 1-2 in college will be obliged to stand the test in only one of the modern languages.

In 1915 and thereafter the foregoing requirements will be prescribed for all students in the A.B. and B.S. courses.

III GENERAL TWO-YEARS' COURSE, NOT LEADING TO A BARNARD DEGREE

This general course is designed to furnish the collegiate foundation for professional work in other schools of the University. It comprises from 62 to 76 points of work. The courses prescribed depend upon whether the candidate intends to transfer to the School of Education, the School of Practical Arts, the School of Architecture, the School of Music, or the School of Journalism.

¹ Candidates who intend to transfer to the School of Education of Teachers College for professional work leading to the degree of Bachelor of Science in Education (see Education, page 57 below) should take the following courses unless their equivalents have been offered for admission:

English A or a more advanced course in rhetoric.....	6 points
English Literature: two half-year courses.....	6 "

IV COURSES IN THE GRADUATE FACULTIES AND PROFESSIONAL SCHOOLS OPEN TO BARNARD STUDENTS

Political Science, Philosophy, and Pure Science

Certain graduate courses in Columbia University under the Faculties of Political Science, Philosophy, and Pure Science are open, with the consent of the department concerned and the Committee on Instruction, to specially qualified seniors. They may be counted towards the Bachelor's degree, or in case the student has more points than the number required for that degree they may, under certain circumstances, be credited towards the Master's degree. Some of these courses are mentioned at the end of the departmental statements given below. For full information students are referred to the appropriate university announcement.

¹ Candidates who enter under Foreign Language Requirement *c* (see page 17), must continue both French and German; those who enter under *d* must continue German; and those who enter under *e* must continue French, in the first year.

Architecture

Certain courses in the School of Architecture are open to regular students in Barnard College, and may be credited towards the Barnard degree. They are described below in the departmental statement on page 75.

After two years of collegiate work in Barnard, amounting to at least 62 points credit and including French A or its equivalent, a student may transfer without examination to the Faculty of Fine Arts in Columbia University and become a candidate for the degree of Bachelor of Architecture. The course in the School of Architecture leading to this degree includes 152 points of work and generally requires four years for its completion.

For full information students are referred to the Announcement of the Faculty of Fine Arts.

Music

Courses in the history and theory of music and in composition, given in the School of Music, are open to regular students in Barnard College and may be credited towards the Barnard degree. They are described below in the departmental statement on page 84.

After two years of collegiate work in Barnard, amounting to at least 62 points credit, a student may transfer without examination to the Faculty of Fine Arts in Columbia University and become a candidate for the degree of Bachelor of Music. The course in the School of Music leading to this degree includes 75 points of work and generally requires two years for its completion.

For full information students are referred to the Announcement of the Faculty of Fine Arts.

Students wishing to combine collegiate work with vocal or instrumental training may, while pursuing courses at Barnard, enroll as regular students at the Institute of Musical Art, Claremont Avenue and 122d Street. They must obtain the consent of the Dean of Barnard College and the Director of the Institute. Work at the Institute will not be counted towards the Barnard degree and must be paid for separately.

Education

Certain courses in the history and theory of education given in Teachers College are open to regular students in Barnard College and may be credited towards the Barnard degree. They are described in the departmental statement on page 84 below.

¹ A student may plan her work in such a way as to earn a professional diploma from Teachers College at the same time as her academic degree from Barnard College. With the permission of the Dean of Barnard College and the Dean of Teachers College she may transfer to Teachers College at the end of her junior year under the following provisions: A

² This arrangement will be substantially modified after July 1, 1914.

candidate for the degree of Bachelor of Arts must have completed 94 points of work in Barnard College, comprising all of the required courses including a major subject of at least 18 points and Education A. A candidate for the degree of Bachelor of Science must have completed 94 points of work at Barnard College, comprising all of the specifically prescribed courses and, of the grouped work, a major subject of at least 28 points with an allied minor subject of 12 points and Education A.

On receipt of a statement from the Faculty of Teachers College that a student so transferred has satisfactorily completed the requirements for the Bachelor's diploma in Teacher's College, the student will be recommended by the Faculty of Barnard College for the degree of Bachelor of Arts or Bachelor of Science, provided she shall have fulfilled the requirements for either of those degrees as laid down in the Announcement of Barnard College.

For full details regarding the major subjects in teaching, their requirements and prerequisites in collegiate work, and the most advantageous division of work in education the student is referred to the current Announcement of Teachers College.

¹ After two years of collegiate work in Barnard, amounting to at least 64 points credit and including the courses listed above under III, a student may, with the consent of the Dean of Barnard College and the Dean of Teachers College, transfer without examination to the professional curriculum of Teachers College and become a candidate for a Teachers College diploma and the degree of Bachelor of Science in Education. The course leading to this degree generally requires two years for its completion.

Journalism

After two years of collegiate work in Barnard, amounting to at least 76 points credit and including certain prescribed courses (see page 56), a student may transfer without examination to the School of Journalism of Columbia University and become a candidate for the degree of Bachelor of Literature. The course in the School of Journalism leading to this degree generally requires for its completion two years in addition to the two years of collegiate work in Barnard College.

For full information students are referred to the Announcement of the School of Journalism.

Religion

Certain courses in the Union Theological Seminary are open, with the consent of the Committee on Instruction and the President of the Seminary, to specially qualified seniors, and may be counted towards the Barnard degree.

Philanthropy

Exceptional advantages are available for students desiring to specialize in economics, sociology, and social economy, in preparation for social and

¹ This arrangement will be substantially modified after July 1, 1914.

philanthropic work. Besides the courses given at Barnard in economics and social science, certain graduate courses in this department of Columbia University are open, with the consent of the department and of the Committee on Instruction, to specially qualified seniors. Because of the affiliation between the College and the New York School of Philanthropy, certain courses in the latter institution may also be pursued, with the consent of the Department of Economics and of the Committee on Instruction, and the approval of the Director of the School, by specially qualified seniors, and counted towards the Barnard degree. No extra tuition fee is required. The purpose of this School is to fit men and women for social service in either professional or volunteer work. It offers valuable courses in the housing problem, child helping agencies, the treatment of the criminal, family rehabilitation, the social settlement movement, and kindred subjects. By taking some of this work in her senior year, a Barnard student may anticipate part of the requirements for the diploma of the School of Philanthropy.

ADVICE TO STUDENTS

At the opening of the year the incoming students shall register as is customary, and shall make out their elective blanks subject to the approval of the Committee on Instruction. During the months of November and December each member of the freshman class shall confer with the Dean regarding her studies and other matters that may be of interest to her. During the month of April, after the appearance of the catalogue, each freshman shall consult with any instructor she may choose regarding her election of courses for the sophomore year. No elective blank shall be considered by the Committee on Instruction that does not bear the signature of the adviser.

The Freshman Year

Before November 1 all deficient students or students with entrance conditions shall consult with the Dean. In April students shall, as during the freshman year, fill out elective blanks subject to the approval of the adviser. The adviser may be any instructor in Barnard College whose work the student has taken in the freshman or the sophomore year, but should preferably be an instructor in the department in which the student means to elect her major subject, which should be chosen not later than the end of the sophomore year. Before May 1 elective blanks bearing the signatures of the adviser and the student shall, as usual, be submitted to the Committee on Instruction for approval.

The Sophomore Year

In April students shall make out elective blanks as in the preceding year. The adviser should be from the department in which the student has elected her major subject and should as a rule be the same as the adviser chosen at the end of the sophomore year. Elective blanks shall be filed in accordance with the usual regulations and submitted to the Committee on Instruction for approval. Whenever necessary, the Dean will consult with particular students.

The Junior Year

During the senior year students will be advised as necessary in individual cases. They should freely consult the Dean and their **The Senior** instructors, who will gladly give advice either as to the **Year** college courses they are taking or concerning possibilities in various lines of work after graduation.

GENERAL REGULATIONS REGARDING EXAMINATIONS IN COURSE, CREDIT, AND ADVANCEMENT

Two series of examinations are held every year, one in January and the **Stated Ex-** other in May. These are the only stated examinations. **aminations** In 1914, the mid-year examinations begin on Wednesday, January 21, the final examinations on Monday, May 18.

All students are expected to attend regularly and promptly all the exercises in the courses for which they are registered. Any considerable **Absences** amount of absence or tardiness will result in the lowering of a student's mark or the loss of one or more points of credit for the course. At the end of each term each student shall file in the Registrar's office on blanks provided for that purpose a list of her absences and tardinesses with the reasons therefor. After considering these excuses and the reports from the instructors, the Committee on Instruction will adjust marks and credits.

Special examinations are held as follows: in the first week of March **Special** of each year, and within the two weeks preceding the **Examinations** opening of the College in the fall.

Such examinations are open, by permission of the Provost, on recommendation of the Committee on Instruction, to

- (a) Students who have received an F in an *elective* course;
- (b) Students who have been absent, for imperative reasons, from the stated examination in any course;
- (c) In rare instances, for reasons of weight, to other students.

In all cases application for permission to take a special examination must be made in writing.

For any such series of examinations, or any such single examination taken at any time other than the stated examination period immediately following the conclusion of the course or courses involved, a fee of \$5 must be paid to the Bursar before the student is admitted to the examination.

The student's performance in a course is rated according to the following grades: A, excellent; B, good; C, fair; D, poor; F, failure.

A student who receives a mark of F in any prescribed course must repeat that course.

No student may count for promotion from any class to the next higher class more than six (6) points of D work. Only twenty-four (24) **Grades and** points of D work can be counted for a degree. Of sev- **Credit** eral courses in which a student is marked D she may choose the ones to be counted.

At the end of every half-year, when all the reports are filed in the Registrar's office, additional credit for high standing is given as follows:

The mark A in courses aggregating six points of work (no course to be counted twice) entitles the student to one point of extra credit, provided she has satisfactorily completed all the work of the half-year and has not fallen below the mark B in any course.	Additional Credit for High Standing
--	--

Any student who is credited with 94 points (including all prescribed work) may receive one point of extra credit for each of two courses chosen from among those offered by any single department as counting toward a higher degree,¹ provided the quality of her work in such course be tested by an essay for which a mark of A or B is given in addition to the stated examinations. No student may receive more than one point of extra credit in one half-year under the terms of this rule.

Regular matriculated students are rated as follows:

Freshmen, those who have entrance conditions or have completed less than 26 points of college work;

Sophomores, those who have no entrance conditions, have completed 26 points of college work, and are not required to repeat prescribed courses amounting to more than 6 points;	Classification of Students
---	---------------------------------------

Juniors, those who have completed 58 points of college work including all prescribed subjects (except Economics A, one year of natural science, or such other prescribed subjects as they may have been permitted by the Provost, on recommendation of the Committee on Instruction, to postpone);

Seniors, those who have completed 94 points, including all prescribed subjects.

In all cases the requirements for promotion must be met in full before the beginning of the academic year.

A student who fails to meet the requirements for advancement from one class to another may, with the consent of the Provost, on the recommendation of the Committee on Instruction, remain in College and repeat the course or courses in which her deficiency exists, or, in the case of elective courses, other courses equivalent thereto in time. She may not, however, register as a special student.

Should a student fail of advancement in two successive years, she shall be permanently dismissed from the College, unless, for reasons of weight, the Provost, on the recommendation of the Committee on Instruction, shall otherwise determine.

SCHOLARSHIPS

There are, altogether, forty-one scholarships and four special funds for

¹ *I.e.*, Master of Arts or Doctor of Philosophy. Such courses are those offered under the Faculty of Political Science, the Faculty of Philosophy, or the Faculty of Pure Science primarily for graduate students, but open also to advanced undergraduates.

the benefit of students who need financial aid. The value of each of these scholarships, unless otherwise stated, is \$150 annually, which sum is applicable to the fees of the year. Under certain circumstances those scholarships known as Student Scholarships may be divided between two applicants.

The scholarships are of two sorts, competitive and non-competitive. Some of the competitive scholarships are awarded to entering freshmen for excellence in entrance examinations. Others are awarded to students already in Barnard for excellence in their college work. The non-competitive scholarships are awarded to students needing financial aid, and, as a rule, only to those who have passed at least one year in college. They are held, unless otherwise stated, for one year only.

Two scholarships may not be held by the same person. Should two scholarships be assigned to the same student in one year, she must at once choose which she will retain. If a student fail to maintain a grade of at least C in all courses which she pursues, or if for any other reason she show herself an unsatisfactory candidate, she shall forfeit her scholarship and, in the case of non-competitive scholarships, shall be ineligible for re-election the following year. No student with entrance conditions unremoved, or with a grade below C in the year previous to that in which she is asking for help, shall be eligible for a scholarship. For competitive entrance scholarships a complete set of entrance examinations, *i.e.*, a total of fourteen and a half (14½) units, is required. These examinations should as a rule be taken in June, since the scholarships are generally awarded before the beginning of the first half-year. (In the case of the Pulitzer Residence Scholarships and the Martha T. Fiske Scholarship they may be taken in two successive Junes). Scholarships vacant in February may, however, be awarded to candidates entering at that time on the January examinations.

Before the first of April of each year all applications for non-competitive scholarships, accompanied with full credentials, must be filed at the Dean's office upon special blanks to be obtained there. Candidates for the competitive scholarships to be awarded on the basis of the June examinations should, in their application to the Secretary of the College Entrance Examination Board (see p. 19), mention the Barnard College scholarships for which they are competing. For the Pulitzer Scholarships and the Martha T. Fiske Scholarship, application must be made to the Secretary of Barnard College before the first of May. In order to qualify for the receipt of her stipend, the holder of a scholarship should report at the office of the Registrar not later than the first day of the academic year.

COMPETITIVE SCHOLARSHIPS

These, subject to the foregoing general regulations for scholarships, are as follows:

I. *Open to entering freshmen:*

Trustees' Competitive Scholarship

I

Awarded annually by the Board of Trustees to the student who in June passes the best complete entrance examinations in all subjects. It may be held for one year only. In case there is no award in June, this scholarship may be awarded the following February to a candidate entering at that time. In this event, it may be held for one half-year only.

Jessie Kaufmann Scholarship

I

Founded in 1902 by Mr. Julius Kaufmann in memory of his daughter, Jessie Kaufmann. The annual income from \$4,000 is awarded on the merits of the entrance examinations to a student who, after careful investigation, is found to have no relative able to assist her financially. It may be held for the entire college course.

Brooklyn Scholarships

12

Founded in 1895 by the Trustees of Columbia University in recognition of the gift to Columbia University by President Low of a memorial building for the University Library. They are open to students who have received their training in either the public or the private schools of Brooklyn, N. Y., and are residents of that city. Three of these scholarships will be awarded annually to qualified competitors who pass in June, without conditions, the best complete entrance examinations in all subjects. They may be held for the entire college course, but a holder, while retaining the title "Brooklyn Scholar," may transfer the income to any properly qualified candidate from Brooklyn without having her action made a matter of public record.

Lucille Pulitzer Scholarships

6

Founded by the late Joseph Pulitzer in memory of his daughter, Lucille Pulitzer. They are of two kinds, Residence Scholarships and Non-residence Scholarships.

The Residence Scholarships carry an income of \$600 a year apiece and are open to women who are not residents of New York City or its vicinity. They are awarded on the merits of entrance examinations taken under the College Entrance Examination Board and on the candidate's general character and power of leadership. The examinations may be taken, if the candidate so desire, in two successive Junes. The scholarships may be held throughout the college course, provided the recipients continue to maintain a high rank in their college work. The holders are required to reside in Brooks Hall, the Barnard hall of residence. Three of these scholarships are now available, and additional ones will be established

with the income accruing to Barnard from the Pulitzer estate. One scholarship will be awarded in 1913.

The Non-residence Scholarships are awarded to students entering the College from the city of New York who are found to have passed excellent entrance examinations and to be worthy of financial aid. They may be held for the first three years of the college course only.

The first (*a*), founded in 1899, carries an annual income of \$400 and will be awarded in 1915, 1918, and corresponding years.

The second and third, given in 1903, carry annual incomes of \$325 each; (*b*) will be awarded in 1913 and 1916, (*c*) in 1914 and 1917, and corresponding years.

Martha T. Fiske Scholarship..... I

Founded in 1911 by Miss Anna E. Smith, in memory of her sister, Mrs. Martha T. Fiske-Collord. It carries an annual income of \$200. It is awarded on the basis of scholarly ability and general character to some deserving candidate not a resident of New York City or its suburbs, and may be held throughout the college course, provided the recipient continues to maintain a satisfactory standing. It will be awarded in 1913.

2. *Open to students who have passed at least one year in college:*

Eleonora Kinnicutt Scholarship..... I

Founded in 1911 in memory of Mrs. Francis P. Kinnicutt, who was a Trustee of Barnard College. It carries an annual income of \$200. It is awarded at the end of the freshman year to a student of exceptionally high standing, and may be held for three years, provided the recipient continues to maintain a high rank. It will be awarded in 1915 and 1918.

Emma A. Tillotson Scholarship..... I

Founded in 1910 by the late Mrs. Luther G. Tillotson. It carries an annual income of \$200. It is awarded at the end of the freshman year to a student of exceptionally high standing, and may be held for three years, provided the recipient continues to maintain a high rank. It will be awarded in 1913 and 1916.

William Moir Scholarships..... 2

Founded in 1912 by the late Mrs. William Moir, in memory of her husband. Each scholarship carries an annual income of \$200.

The first (*a*) is awarded at the end of the freshman year to a student of exceptionally high standing who is in need of assistance, and may be held for three years, provided the

recipient continues to maintain a high rank. It will be awarded in 1914 and 1917.

The second (b) may be awarded to a student of any class who has shown exceptional scholarly ability and who is in need of assistance.

NON-COMPETITIVE SCHOLARSHIPS

These, subject to the general regulations for scholarships, are as follows:

Student Scholarships.....	4
These are supported by the income of a permanent fund that is being established and that at present amounts to \$9,680 and of the Arthur Brooks Fund (see below). They are not, as a rule, assigned to incoming students.	
Ella Weed Scholarship.....	I
Founded in 1895 by the pupils of Miss Anne Brown's School in memory of Miss Ella Weed, who was chairman of the Academic Committee of the Board of Trustees of Barnard College during the first five years of its existence.	
Veltin School Scholarship.....	I
Founded in 1905 by the alumnae of Mlle. Veltin's School.	
Jennie B. Clarkson Scholarship.....	I
Founded in 1898 by the late Mrs. W. R. Clarkson.	
Emily James Smith Scholarship.....	I
Founded in 1899 by Miss Emily H. Bourne in honor of Miss Smith, then Dean of Barnard College. It is awarded in conference with the founder.	
Anna E. Barnard Scholarship.....	I
Founded in 1899 by Miss Emily H. Bourne in honor of Mrs. John G. Barnard. It is awarded in conference with the founder.	
Brearley School Scholarship.....	I
Founded in 1899 by pupils and former pupils of the Brearley School.	
Eliza Taylor Chisholm Memorial Scholarship.....	I
Founded in 1901 by the Alumnae Association of Miss Chisholm's School, which association reserves the privilege of precedence for such candidates as it may recommend.	
Graham School Scholarship.....	I
Founded in 1907 by the Graham Alumnae Association.	
Mrs. Donald McLean Scholarship.....	I
Founded in 1906 by the New York Chapter of the Daughters of the American Revolution. It is awarded, in conference with a representative of the Chapter, to a deserving student who agrees to pursue the study of history (chiefly that of the United States) continuously throughout her college course.	

- Emma Hertzog Scholarship I
 Founded in 1904 by gifts from residents of Yonkers, N. Y. It is awarded, in conference with the Faculty of the Yonkers High School, to a graduate of that school who is entering Barnard College.
- Mrs. Henry Clarke Coe Scholarship I
 Founded in 1910 by the National Society of New England Women. It is awarded, on the nomination of the chairman of the Scholarship Committee of the above Society, to a student from New England or of New England parentage, and after the award is once made the Society requires from the beneficiary full obedience to discipline and the highest ideals of scholarship. This may be awarded to an entering freshman.
- Mary Barstow Pope Scholarship I
 Founded in 1913 in memory of Mary Barstow Pope, sometime teacher in Miss Chapin's School, by her friends, her fellow-teachers, and her pupils. It is open to any undergraduate of Barnard College for the whole or any part of her course, and is awarded on the nomination of a self-perpetuating committee representing the founders.

SPECIAL FUNDS FOR THE AID OF NEEDY AND DESERVING STUDENTS

Arthur Brooks Fund.

A fund of \$5,000, given in 1897 by Miss Olivia E. Phelps Stokes as a memorial of the Reverend Arthur Brooks, D.D., Rector of the Church of the Incarnation and Chairman of the Board of Trustees of Barnard College during the first six years of its existence. This fund is at present applied to the maintenance of the Student Scholarships.

Fiske Scholarship Fund.

A fund of \$5,000 given by the late Mrs. Martha T. Fiske-Collord, the income of which is placed at the disposal of the Dean of Barnard College.

George W. Smith Scholarship Fund.

A fund of \$5,000 given in 1906 by the late Mrs. Martha T. Fiske-Collord as a memorial to Mr. George W. Smith, who was a Trustee of Barnard College. The income of the fund is placed at the disposal of the Dean of the College.

Charles Stewart Smith Scholarship Fund.

Established in 1911 in memory of the late Charles Stewart Smith, who was a Trustee of Barnard College. It provides an annual income of \$250, which is used to assist needy and deserving students.

GRADUATE FELLOWSHIP

Established by an anonymous donor in 1912. It is of an annual value of \$600. The holder is to pursue a year of graduate study at Columbia or any other university or college of approved standing. This Fellowship is awarded each year as an academic honor to that member of the graduating class of Barnard College who, in the opinion of the Faculty, shows most promise of distinction in her chosen line of work. Should the recipient prove in no need of financial assistance, she may retain the title and honor, but resign the income, which will then be used for other fellowships or scholarships. This Fellowship is not to be applied for, but is awarded each year as soon as possible after the mid-year examinations. Students who have graduated in February are eligible, as well as those who are to graduate in June.

PRIZES

The following prizes are awarded annually, on the recommendation of the appropriate departments of the Faculty of Barnard College, in accordance with the special conditions named below. No prize will be awarded to any student who falls below grade C in any course during the year in which she is a competitor.

HERRMAN BOTANICAL PRIZE

A prize of \$50, founded by the late Mrs. Esther Herrman, is awarded annually to the most proficient undergraduate student in botany.

KOHN MATHEMATICAL PRIZE

A prize of \$50, founded by Mrs. S. H. Kohn, is awarded annually to a senior for excellence in mathematics. Competitors for this prize must have pursued mathematics continuously during their college course.

THE JENNY A. GERARD MEDAL

The Jenny A. Gerard Gold Medal, given in 1908 by the Society of the Colonial Dames of America in memory of Mrs. James Gerard, late President of the Society, is awarded annually to the undergraduate student of American birth in Barnard College who is most proficient in American Colonial History.

SPERANZA PRIZE IN ITALIAN

A prize of \$50, founded by a former student in memory of the late Carlo Leonardo Speranza, Instructor and Professor of Italian at Barnard from 1890 until 1911, is awarded annually to a student in Barnard College for excellence in Italian.

The following prizes of Columbia University are by their terms open to students of Barnard College.

THE BUNNER MEDAL

The H. C. Bunner Gold Medal, established by the friends of the late Henry Cuyler Bunner, is awarded annually at Commencement to the candidate for a Columbia degree who shall present the best essay on an assigned subject in American literature. The award will be made by a committee to be appointed by the President. The subject for the essay to be handed in May 1, 1913, is "American Dialect Poetry"; in 1914, "The American Annual before 1850."

EARLE PRIZE IN CLASSICS

A prize of \$50, established in memory of Mortimer Lamson Earle, Instructor in Greek in Barnard College from 1889 to 1895 and from 1898 to 1900, and Professor of Classical Philology from 1900 to 1905, is open for annual competition to all candidates for the degree of Bachelor of Arts. It is awarded partly on the basis of the regular work of the year in Greek and in Latin, partly on the basis of a special examination. The special examination covers specified portions of Greek and Latin literature, sight reading in Greek and in Latin, and prose composition in Greek and in Latin. The special subjects for 1914 are Sophocles' *Ajax* and Livy, Book XXVII.

For the award in 1914, the examination will be held in January. Students are urged to do much of their work for the examination during the preceding summer vacation.

THE CAROLINE PHELPS STOKES PRIZE

The Caroline Phelps Stokes Prize of \$40 is awarded annually at Commencement to that student who, having been regularly enrolled in Columbia College or Barnard College or Teachers College as a candidate for an academic degree, for not less than one academic year, shall be deemed to have written the best essay upon an assigned topic bearing upon the rights of man. The subject for the essay to be handed in May 1, 1913, is "The Doctrine of the Rights of Man as Modified by Mazzini's Doctrine of the Duties of Man"; in 1914, "The Rights of Man as They Appear in the Policy of the English Liberals of the Twentieth Century." In 1914 use may be made, for guidance in reading and reflection, of L. T. Hobhouse's *Liberalism* and C. H. Hayes' *British Social Politics*.

HONORS

Departmental honors are awarded for high excellence in the work of any department, under the following regulations:

No honors shall be awarded to freshmen or special students or to any student whose work falls below C in any course taken by her in the year of her candidacy.

Departmental Honors

No honors shall be awarded to students on elementary courses only.

First year honors in any department shall be awarded at the end of any year to any student who has taken at least 12 points of work in that department, of which at least 6 points shall be of grade A and none below grade B, and who has done extra work required by the department, and who is certified by the department as worthy of honors.

Second year honors in any department shall be awarded to a student who has taken at least 18 points of work in that department, of which at least 12 points shall be of grade A and none below grade B, who has done extra work required by the department and is certified by the department as worthy of honors.

Third year honors in any department shall be awarded to any student who has taken at least 24 points of work in that department, of which at least 18 points shall be of grade A and none below grade B, who has done extra work required by the department and is certified by the department as worthy of honors.

With the consent of the departments concerned and of the Committee on Honors, part of the 12, 18, or 24 points of work required for departmental honors may be taken in an allied department.

Final honors in any department shall be awarded to any student who has obtained honors in that department for three successive years.

Candidates for honors shall confer with the department concerned and shall announce their candidacy in writing to the Registrar not later than December 10 of the academic year in which they wish to take honors.

The amount of extra work required for honors shall correspond approximately to that accepted for one point of regular college credit.

For general excellence in the work of the college course honors may be awarded at graduation, under the following regulations:

The Faculty of Barnard College, on the recommendation of the Committee on Honors, may recommend that the degree CUM LAUDE be awarded to any student who has obtained grade A in at least one-half of the work of the college course, and who has not fallen below grade B in more than one-quarter of the work of the college course, and who has twice received departmental honors.

Degrees with Honors

The Faculty of Barnard College, on the recommendation of the Committee on Honors, may recommend that the degree MAGNA CUM LAUDE be awarded to any student who has obtained grade A in at least three-quarters of the work of the college course, and who has never fallen below grade C, and who has received final honors in some department, or first and second year honors in each of two departments.

RESIDENCE HALL

Brooks Hall, the residence hall for Barnard College students, will open on Monday, September 22, 1913, and will close on Saturday, June 6, 1914. Candidates for admission or students who wish to secure accommodations in Brooks Hall during the week of the September entrance or deficiency examinations should make arrangements directly with the Secretary of the Hall, not later than September 1.

Full information in regard to the situation and cost of rooms, the advance deposit, the charge for electric light, and the residence scholarships is published in a separate pamphlet, to be had on application to the Secretary of Brooks Hall. All correspondence regarding accommodations in Brooks Hall should be addressed to the Secretary of the Hall, 607 West 116th Street, New York, N. Y. For the dormitory fees see p. 51.

The post-office address for residents is Brooks Hall, 607 West 116th Street, New York, N. Y.

HEALTH AND PHYSICAL TRAINING

The University Health and Sanitary Officer, Dr. William H. McCastline, supervises the sanitation of the college and gives personal advice to the students concerning their health. A trained nurse, who lives in Brooks Hall, works under Dr. McCastline's direction in promoting the health of both resident and non-resident students.

Students of Barnard College have the use, at certain hours, of the Thompson Gymnasium of Teachers College. They have also, on Milbank Quadrangle, a practice field for hockey and basketball, and tennis courts. A physical examination is required of each student upon entrance and at the end of the work in physical education prescribed for college students. On the basis of this examination advice is given as to the kind and amount of exercise best adapted to her needs. Each student must also consult with the instructor at least once a month during her freshman and sophomore years. As far as possible the work in physical education is conducted in the open air.

THE UNIVERSITY LIBRARY

The University Library is open each week-day (except Labor Day, Thanksgiving, Christmas, New Year's Day, Good Friday, and Independence Day) from 8.30 A.M. until 11 P.M., October-June; and until 10 P.M., July-September. All officers, students, and graduates of all departments of the University have free access to the Library and may draw books for home use.

The Library contains about 500,000 volumes, exclusive of unbound pamphlets and duplicates, and some 35,000 German dissertations. About 5000 carefully selected reference books and many of the most important works on all subjects, in standard editions, representing the leading authors

in all literatures, are placed in the general reading-room directly accessible to all readers.

For the convenience of the undergraduates of Barnard College there is also maintained in the Ella Weed Memorial Reading-room at Barnard College a carefully selected reference library of about 7900 volumes.

An accurate catalogue of the entire Library by authors and subjects is on cards accessible to readers.

PUBLIC LECTURES

Barnard College students may avail themselves of the opportunities offered by the numerous public lectures which are given each year at Columbia University, ordinarily by persons of distinction who are not members of the teaching staff. Students of the University may also frequently enjoy important dramatic and musical performances at reduced cost.

UNIVERSITY PRESS BOOKSTORE

A University bookstore is maintained under the auspices of the Columbia University Press, where officers and students may purchase books and stationery at stated discounts from list prices.

CHAPEL SERVICE

Chapel service is held on Monday and Thursday of each week at 12 o'clock in the college assembly room. The service lasts about twenty minutes and is conducted by the Dean, with an address by some clergyman or lay speaker, or by an officer of the University. Attendance is voluntary.

In St. Paul's Chapel, the chapel of Columbia University, service is held every week-day except Saturday at 12 o'clock and on Sunday afternoon at 4 o'clock. At these services also attendance is voluntary.

Special University services are held in St. Paul's Chapel on the Wednesday preceding the Thanksgiving recess and on the first Wednesday of the second half-year.

STUDENT ORGANIZATIONS

Under the system of self-government in use in the college, the various student organizations are supervised by the Student Council, subject to the general approval of the Faculty. The Council controls the schedules of meetings and entertainments and administers rules of eligibility for office-holding and participation in college plays.

DEPARTMENTAL STATEMENTS

The following general regulations apply to all courses. The paragraphs on "The Program of Studies," pp. 51-59 should be carefully read.

When an announced course has not been applied for by at least three candidates for a degree, the instructor may withdraw it.

Where the hours for laboratory work are not given either in the departmental statement or in the scheme of attendance, they must be arranged after consultation with the officer in charge of the course.

Courses designated by capital letters (except French **B1, B2**) are prescribed. Elective courses are designated by numbers, odd numbers for the first half-year courses and even numbers for the second half-year courses. A compound course is therefore designated by an odd number and the succeeding even number. The numbers from **1** to **99** inclusive are given to courses open only to undergraduates; the numbers from **101** to **199** inclusive are given to courses open to both undergraduates and graduates; the lower numbers in each case being used for the introductory courses.

In the statement of each course the prerequisites are indicated. When no department is named it is to be assumed that the reference is to a numbered course in the same department.

A hyphenated course (*e. g.*, History **A1-A2**) is regarded as a full year course of which the first half is always assumed to be a prerequisite for admission to the second half, and no credit will be given for work dropped at the mid-years or before the completion of the course. A course of which the index signs are separated by a comma (*e. g.*, English **A1, A2**) is regarded as a divisible course of which each half-year may be taken separately.

Courses marked with an asterisk (*) are given at Columbia University. *The number of points credit to be assigned for an advanced course numbered over 100 and given at Columbia University is to be determined in each case by the Committee on Instruction of Barnard College in conference with the instructor or the representative of the department concerned.*

Courses marked with a dagger (†) are given at Teachers College. *Work at Teachers College mentioned herein may be pursued only by regularly enrolled students of Barnard College and only when counting for a Barnard College degree. Certain courses not here specified as being open at Teachers College may, through the courtesy of Teachers College and with the consent of the Committee on Instruction, be taken by such students; but in no case may courses in education not announced in the Announcement be elected by students who are not candidates for a professional degree in Teachers College. All*

special students of whatever class should enroll at Teachers College for Teachers College courses.

For further detailed information in regard to topics, text-books, or methods in any particular course, students are referred to the instructors.

INTRODUCTORY COURSES

1-2—Introductory Survey of Natural and Social Sciences. Professors REIMER, MALTBY, JACOBY, OGILVIE, RICHARDS, CRAMPTON, FARRAND, Mr. SHENTON, and Professors BEARD and MONTAGUE. 3 points for the year (for Journalism students only, extra reading will be assigned in order to make this course a 6-point course for the year and parallel to the corresponding course in the School of Journalism).

M., W., and F. at 1.

This course consists of eight lectures and assigned readings in each of the following subjects: chemistry, physics, astronomy, geology, botany, zoölogy, anthropology, sociology, politics, and philosophy. It is designed to give all students a general idea of the typical problems, methods, and results of the sciences treated and to afford students intending to specialize in science a basis for making an intelligent choice of subject. This course cannot be counted as fulfilling the prescribed requirement in science for the A.B. or the B.S. degree.

ANTHROPOLOGY

1—General Introductory Course. Professor FARRAND. 4 points.

M., W., and F. at 1, and one hour to be arranged.

Open to juniors and seniors.

This course consists of an outline of comparative anthropology. A general discussion of the physical characters of the earliest human remains and their relations to present forms is given. Special stress is laid on the discussion of the mental development of primitive man, together with a description of types of primitive culture and an inquiry into the relation and development of particular phases of culture.

2—General Introductory Course. Professor BOAS. 4 points.

M., W., and F. at 1, and one hour to be arranged.

Open to juniors and seniors.

In this course the subject-matter of anthropology is discussed from an historical and geographical point of view. A general survey of races, languages, and types of culture is given and the growth of each type of culture as influenced by migration of cultural elements is traced. The history of domesticated animals, of cultivated plants, of industries, and of beliefs and institutions, is thus treated.

Courses 103, Prehistoric Archæology, Professor SAVILLE; 104, Prehistoric Archæology of America, Professor SAVILLE; 105, 106, Ethnology, Primitive Culture, Professor FARRAND; 107, 108, Ethnology of America and Siberia, Professor BOAS; 115, Archæology of the Northern Part of Mexico, Professor SAVILLE; 116, Archæology of Southern Mexico and Central America, Professor SAVILLE; 117, 118, American Languages, Professor BOAS; 121-122, Anthropometry, Professor BOAS; 129, 130, American Languages, advanced course, Professor BOAS; 131, 132, Types of Primitive Social Organization, Dr. GOLDENWEISER, given at Columbia University, are open, with the consent of the Department of Anthropology and the Committee on Instruction, to properly qualified seniors. For fuller information students are referred to the Announcement of the Division of Philosophy, Psychology, and Anthropology.

ARCHITECTURE

***21-22—Ancient and Mediæval Architecture.** Mr. BACH. 2 points.

Tu. at 9.

Prerequisite: a fair knowledge of elementary drawing, freehand and instrumental.

The ancient architecture of Egypt, Assyria, Persia, Greece, and Rome. Early Christian, Byzantine, Romanesque, and Gothic architecture.

***23-24—Renaissance, Modern, and Oriental Architecture.** Professor HAMLIN. 2 points.

F. at 9.

Prerequisite: a fair knowledge of elementary drawing, freehand and instrumental.

The architecture of the Renaissance in Italy, France, Germany, Spain, and England; European architecture of the 19th century; American architecture; Moslem and Indian architecture.

***121-122—Ancient Architecture.** Professor HAMLIN. 4 points.

Tu. and Th. at 10.

Prerequisite: a fair knowledge of elementary drawing, freehand and instrumental.

The ancient architecture of Egypt, Assyria, Persia, Judea, Greece, and Rome, and brief study of the sculpture of Greece and Rome; historical, analytical, and critical discussion with incidental drawings.

***123-124—Mediæval Architecture.** Professor HAMLIN. 4 points.

M. and F. at 11.

Prerequisite: Course 121-122.

Early Christian and Byzantine architecture; the Romanesque and Gothic styles in Italy, France, England, Germany, Spain, and the Netherlands; Moslem and Indian architecture; analytical and critical discussion of the historic development, characteristics, and chief examples of the mediæval styles, with occasional drawings.

***125-126—Renaissance and Modern Architecture.** Professor HAMLIN. 4 points.

Tu. and Th. at 1.

Prerequisite: Course 121-122.

The architecture of the Renaissance in Italy, France, Germany, Spain, the Low Countries, and England; architecture of the 19th century in Europe; American architecture; modern and contemporary developments and tendencies. Analytical and critical discussion of historical development and great examples of architecture since 1420, with incidental occasional drawings.

***153-154—Theory and Practice of Decorative Arts.** Mr. BACH. 2 points.

Th. at 9.

Prerequisite: a fair knowledge of elementary drawing, freehand and instrumental.

An analysis of the principles controlling decorative composition and a detailed treatment of the processes involved in the following arts: mosaic, mural painting, architectural sculpture, ceramics, stained glass, plaster, iron and wood-work.

Collateral work: 8 practical studies upon assigned topics.

ASTRONOMY

1, 2—General Astronomy, Introductory Course. Professor JACOBY. Lectures, 4 points; with third hour, 6 points.

Tu. and Th. at 1 and a third hour to be arranged during part of the year in the evening, at the Wilde Observatory.

Prerequisite: Mathematics A1, A2.

This course is introductory and descriptive, intended for students who do not desire to specialize. The lectures are illustrated by experiments and the stereopticon. Observatory work includes observation of the sun and moon, planets, satellites, nebulae, and stars.

3, 4—General Astronomy, Second Course. Professor MITCHELL. 6 points.

Tu., Th., and S. at 9.

Prerequisite: Course 1, 2.

Course 103, 104, Practical Astronomy, Professor MITCHELL, given at Columbia University, is open, with the consent of the Department of Astronomy and the Committee on Instruction, to properly qualified seniors. For fuller information students are referred to the Announcement of the Division of Mathematical and Physical Science.

BOTANY

51-52—Principles of the Morphology and Physiology of Plants. Professor RICHARDS, Miss LATHAM, and Miss STEWART. 2 lectures, 4 hours of laboratory work. Demonstrations to accompany lectures. 8 points.

Lectures M. and F. at 9. Demonstrations and conferences W. at 9.

Laboratory fee, \$2.50.

53-54—General Morphology and Development of Plants, Study of Types. Professor HAZEN and Miss STEWART. 2 lectures, 4 or 6 hours of laboratory work. 8 or 10 points.

Tu. and Th. at 10.

Laboratory fee, \$2.50.

Course 53-54 is not open to freshmen. It should ordinarily be preceded by 51-52 but is open, on consultation with the instructor, to students of sufficient training who also either attend the lectures in 51-52 or elect the full 6 hours of laboratory work in Course 53-54.

55-56—Morphology and Classification of Spermatophytes, Study of the Natural Orders. Professor HAZEN. 1 hour lecture or conference, 4 or 6 hours of laboratory work. 6 or 8 points.

Hours to be arranged.

Laboratory fee, \$2.50.

Prerequisite: Course 51-52 or entrance botany.

153—Anatomy of Vascular Plants. Miss LATHAM. 2 lectures and a minimum of 6 hours of laboratory work. 5 points.

Tu. and Th. at 9.

Laboratory fee, \$2.50.

Prerequisite: Course 53-54, except for seniors on consultation with instructor.

154—Physiology of Plants from Standpoint of Nutrition. Professor RICHARDS and Miss LATHAM. 2 lectures and a minimum of 6 hours of laboratory work. 5 points.

Tu. and Th. at 9.

Laboratory fee, \$2.50.

Prerequisite: Course 153 and some knowledge of chemistry.

Courses 154 and 156 are given in alternate second half-years.

[156—Physiology of Plants from Standpoint of Growth. Professor RICHARDS and Miss LATHAM. 2 lectures and a minimum of 6 hours of laboratory work. 5 points.

Laboratory fee, \$2.50

Prerequisite: Course 153 and some knowledge of chemistry.

Not given in 1913-14.]

Courses 154 and 156 are open to students only after consultation with the instructor.

158—Structure and Development of Algæ. Advanced course. Professor HAZEN. 1 lecture and 6 or 8 hours of laboratory work. 4 or 5 points.

Hours to be arranged.

Laboratory fee, \$2.50.

Prerequisite: Courses 51-52 and 53-54.

159—Structure and Development of Fungi. Advanced course. Professor RICHARDS. 1 lecture and 6 or 8 hours of laboratory work. 4 or 5 points.

Hours to be arranged.

Laboratory fee, \$2.50.

Prerequisite: Courses 51-52 and 53-54.

Courses 158 and 159 are given either the first or second half-year to suit the convenience of the instructors and students. The two courses will not usually be given the same year.

160—Embryology and Laboratory Methods. Practice in methods of technique, with the study of the embryology of one or more types. Professor HAZEN. 8 hours of laboratory work with occasional lectures and outside reading. 4 points.

Hours to be arranged.

Laboratory fee, \$2.50.

Prerequisite: Course 153; parallel: Course 154 or 156.

161, 162—Advanced Physiology and Morphology. Professors RICHARDS, HAZEN, and Miss LATHAM.

Laboratory fee, \$2.50 for each half-year.

Work will be arranged to suit the needs of the students, and credit will be given according to the amount accomplished. While the topics assigned in this course usually involve only individual work of an advanced nature, lectures will be given and reading

assigned, if a sufficient number of properly qualified students desire them. Some form of essay is usually demanded in connection with the other work.

Open to students only after consultation with the instructor. With the permission of the instructor this course may be taken in successive years.

Journal Club. The advanced students and instructors meet to read and discuss recent books and papers.

CHEMISTRY

Students are requested to elect courses in the following order: 5-6, 63, 64, 41-42, 43-44.

5-6—General Inorganic Chemistry. Professor REIMER, Miss KELLER, Miss CLARK, and Miss FINCH. 5 hours, including lectures, discussions, and laboratory work. 6 points.

M., W., and F. at 11. Laboratory work, Tu., W., or Th., 2-4.30; in order to obtain full credit for the course, students who have passed the entrance examination in chemistry must take the special laboratory course on M., 2-4.30.

Laboratory fee, \$4.00.

41-42—Organic Chemistry, Elementary Lecture Course. Professor REIMER. 3 hours. 6 points.

Tu. and Th. at 9 and a third hour to be arranged.

Prerequisite: Course 5-6. It is urged that Course 43-44 be taken with this course.

43-44—Organic Chemistry, Elementary Laboratory Course. Professor REIMER. A minimum of 6 hours. 6 points.

Hours to be arranged.

Laboratory fee, \$15.00.

Prerequisite: Courses 5-6, 41-42. Recommended as a parallel to Course 41-42.

This course is designed to teach the student the important methods of preparation of organic compounds.

63—Qualitative Analysis. Miss KELLER. 3 lectures and 8 hours of laboratory work. 7 points.

Tu. and Th. at 10 and a third hour to be arranged; laboratory work, 8 hours, to be taken on M., Tu., and Th. afternoons, 1-4.30.

Laboratory fee, \$6.

Prerequisite: Course 5-6.

The lecture work of this course consists of a study of the elements, especially of the metals, and of methods of qualitative analysis.

64—Quantitative Analysis. Miss KELLER. 3 lectures and 8 hours of laboratory work. 7 points.

Tu. and Th. at 10 and a third hour to be arranged; laboratory work, 8 hours to be taken on M., Tu., and Th. afternoons, 1-4.30.

Laboratory fee, \$6.

Prerequisite: Courses 5-6 and 63.

This course deals with fundamental quantitative methods and with such theoretical problems as are involved in analytical processes.

[105-106—Inorganic Chemistry, Advanced Course. Miss KELLER.
3 lectures and a minimum of 6 hours of laboratory work. 12 points.

Laboratory fee, \$20.

Prerequisite: Courses 5-6, 63, 64, and Physics 1-2 or 11-12.

This course is designed to supplement Courses 63 and 64. The lectures will be devoted to a detailed discussion of the elements, and advanced theoretical chemistry, The laboratory work will consist of practice in mineral analyses, and physical-chemical measurements.

Not given in 1913-14.]

145-146—Organic Chemistry, Advanced Course. Professor REIMER.
3 lectures and a minimum of 6 hours of laboratory work. 12 points.

M., W., and F. at 1.

Laboratory fee, \$20.

Prerequisite: Courses 5-6, 41-42, 43-44, 63, 64.

This course is designed to supplement Courses 41-42 and 43-44. It is a more comprehensive discussion of the most important classes of organic compounds and their relations to each other. Special emphasis will be given to recent theories as to the structure of the compounds and the mechanism of their reactions. The laboratory work consists of the preparation of organic compounds discussed in the lectures and the study of their reactions. In the second half-year, some special problem is assigned to each student.

Journal Club. Professor REIMER and Miss KELLER. 1 hour. The advanced students and the instructors meet for reports and discussion on recent scientific papers.

CLASSICAL PHILOLOGY

Greek

1-2—Elementary Course. Grammar, Composition, Xenophon's *Anabasis*, Homer's *Iliad*. Professor HIRST. 10 points.

M., Tu., W., Th., and F. at 2. (In case of a conflict in hours on one or two days, an effort will be made to change those hours.)

Prerequisite: elementary entrance Latin.

This course may not be begun in the second half-year.

3—Homer and Lucian. Professor YOUNG. 3 points.

M., W., and F. at 10.

Prerequisite: Course 1-2 or elementary entrance Greek.

4—Lucian and Plato. Professor PERRY. 3 points.

M., W., and F. at 10.

Prerequisite: Course 1-2 or elementary entrance Greek.

9-10—Prose Composition. First Course. Mr. MESSER. 4 points.
Tu. at 10.

May be taken in connection with any other course (except 1-2), but not separately.

11—Euripides and Sophocles. Professor PERRY. 3 points.
M., W., and F. at 11.
Prerequisite: advanced entrance Greek or Courses 3, 4

12—Demosthenes: De Corona; Aeschines. Professor WHEELER. 3 points.

M., W., and F. at 11.
Prerequisite: advanced entrance Greek or Courses 3 4.

13—Rapid Reading of Homer. Mr. CARPENTER. 2 points.
M. and W. at 9.
Prerequisite: advanced entrance Greek or Courses 3, 4.

14—Rapid Reading of Herodotus. Mr. MESSER. 2 points.
M. and W. at 9.
Prerequisite: advanced entrance Greek or Courses 3, 4.

15—Lucian; Xenophon: Selections from the Memorabilia and the Symposium. Dr. GUERNSEY. 2 points.
Tu. and Th. at 10.
Prerequisite: advanced entrance Greek or Courses 3, 4.

16—Plato: Euthyphro, Crito, and selections from the Phaedo. Professor VAN HOOK. 2 points.
Tu. and Th. at 10.
Prerequisite: advanced entrance Greek or Courses 3, 4.

29-30—Prose Composition. Second Course. Mr. CARPENTER. 4 points.
Hours to be arranged.
Prerequisite: Course 9-10.

May be taken in connection with any other course, but not separately.

31—Aeschylus or Sophocles; Aristophanes. Professor VAN HOOK. 3 points.
M., W., and F. at 2.
Prerequisite: Courses 11, 12 or 13, 14 or 15, 16.

32—Thucydides. Professor YOUNG. 3 points.
M., W., and F. at 2.
Prerequisite: Courses 11, 12 or 13, 14 or 15, 16.

39-40—Prose Composition. Third Course. Dr. GUERNSEY. 4 points.
Hours to be arranged.
Prerequisite: Course 29-30.

May be taken in connection with any other course, but not separately.

[41-42—Greek Literature; lectures and required reading. 8 points.
Not to be given in 1913-14.]

Courses 31, 32 and 41-42 are given in alternate years.

For a course on Greek Life and Thought see **Classical Civilization 52.**

Latin

A1—Livy: Selections from Books XXI-XXII; Terence (one play). Professors VAN HOOK, HIRST, and STURTEVANT, Dr. GUERNSEY, Mr. MESSER, Mr. CARPENTER, and Miss GOODALE. 3 points.

Sections I-IV, M., W., and F. at 1; Sections V-VII, Tu., Th., and S. at 9.

Prescribed for freshmen taking the A.B. course, unless they offered Advanced Latin at entrance.

During the second half-year, **Latin A1** will be repeated on M., W., and F. at 2, for students who enter in February.

A2—Horace: Selected Odes and Satires; Catullus. Professors VAN HOOK, HIRST, and STURTEVANT, Dr. GUERNSEY, Mr. MESSER, Mr. CARPENTER, and Miss GOODALE. 3 points.

Sections I-IV, M., W., and F. at 1; Sections V-VII, Tu., Th., and S. at 9.

Prescribed for freshmen taking the A.B. course, unless they offered Advanced Latin at entrance.

9-10—Prose Composition. First Course. Miss GOODALE. 4 points.
F. at 11.

May be taken in connection with any other course, but not separately.

11—Horace: Satires and Epistles; Tacitus: Germania. Professor KNAPP. 3 points.

M., W., and F. at 9.

Prerequisite: advanced entrance Latin or Courses **A1, A2.**

12—Juvenal; Martial; Pliny: Letters. Professor HIRST. 3 points.
M., W., and F. at 9.

Prerequisite: advanced entrance Latin or Courses **A1, A2.**

15—Seneca: Prose works; Boethius. Professor HIRST. 2 points.
Tu. and Th. at 1.

Prerequisite: advanced entrance Latin or Courses **A1, A2.**

16—Tacitus: Selections from Annales, Books I-VI. Dr. GUERNSEY. 2 points.

Tu. and Th. at 1.

Prerequisite: advanced entrance Latin or Courses **A1, A2.**

[**17—Petronius and Suetonius, or Vergil.** 2 points.

Not to be given in 1913-14.]

[18—Vergil or Apuleius. 2 points.

Not to be given in 1913-14.]

Courses 15, 16 and 17, 18 are given in alternate years.

29-30—Prose Composition. Second Course. Professor HIRST. 4 points.
Hours to be arranged.

Prerequisite: Course 9-10.

May be taken in connection with any other course, but not separately.

31—Roman Philosophy: Selections from Cicero and Lucretius. Professor McCREA. 3 points.

M., W., and F. at 11.

Prerequisite: Courses 11, 12 or 15, 16 or 17, 18.

32—Roman Drama: Selected plays of Plautus, Terence, and Seneca. Professor KNAPP. 3 points.

M., W., and F. at 11.

Prerequisite: Courses 11, 12 or 15, 16 or 17, 18.

39-40—Prose Composition. Third Course. Professor LOCKWOOD. 4 points.

Hours to be arranged.

Prerequisite: Course 29-30.

May be taken in connection with any other course, but not separately.

41—Latin Literature of the Republic; lectures and reading. Professor KNAPP. 4 points.

Tu. and Th. at 3 and a third hour to be arranged.

Prerequisite: Courses 11, 12 or 15, 16 or 17, 18.

42—Latin Literature of the Empire; lectures and reading. Professor KNAPP. 4 points.

Tu. and Th. at 3, and a third hour to be arranged.

Prerequisite: Courses 11, 12 or 15, 16 or 17, 18.

†51-52—Latin Readings. Professor LODGE. 6 points.

M., W., and F. at 10.

Classical Civilization

[51—Roman Life and Thought. Professor KNAPP. 2 points.

Not to be given in 1913-14.]

52—Greek Life and Thought. Professor VAN HOOK. 2 points.

Tu. and Th. at 2.

Open to all students.

[54—Greek Art. 2 points.

Not to be given in 1913-14.]

Courses 52 and 54 are given in alternate years.

ECONOMICS AND SOCIAL SCIENCE

Economics

A1-A2—Outlines of Economics. Professors MUSSEY and CHADDOCK, and Miss HUTCHINSON. 6 points.

Entire class Monday at 3; Section I, M. and W. at 10; Section II, Tu. and Th. at 9; Sections III and IV, Tu. and Th. at 10; Sections V and VI, Tu. and Th. at 11

Prescribed for juniors and open to specially qualified sophomores.

11-12—Women in Industry. Miss HUTCHINSON. 6 points.

W. and F. at 10 and a third hour to be arranged.

Prerequisite: Course A1-A2.

A study of the economic relations of women.

111, 112—Problems of Public Health—Standards of Living. Professor CHADDOCK. 4 points.

Tu. and Th. at 10.

Prerequisite: Course A1-A2.

This course emphasizes the importance of the conservation of human energy and powers, especially in relation to the problems of the city community.

117—The Labor Problem. Professor SEAGER. 4 points.

Tu. and Th. at 1, and W. at 3.

Prerequisite: Course A1-A2.

118—History of Socialism. Professor SIMKHOVITCH. 4 points.

Tu. and Th. at 1, and W. at 3.

Open to juniors and seniors.

The development of the socialist movement from the beginning of the nineteenth century to the present time.

Courses 104, Commerce and Commercial Policy, Professor MUSSEY; 106, The Trust and Corporation Problem, Professor SEAGER; 107, Fiscal and Industrial History of the United States, Professor SELIGMAN; 108, Railroad Problems: Economic, Social, and Legal, Professor SELIGMAN; 125, Economic Problems of Germany, Professor RATHGEN, given at Columbia University, are open, with the consent of the Department of Economics and the Committee on Instruction, to specially qualified seniors and juniors. For fuller information students are referred to the Announcement of the Division of History, Economics, and Public Law.

Sociology

Courses 51, 52, Elements of Sociology and Social Progress, Mrs. SIMKHOVITCH, given at Teachers College, and 151, 152, Principles of Sociology, Professors GIDDINGS and TENNEY, given at Columbia University, are open, with the consent of the instructor and the written approval of the Department of Economics at Barnard College, to specially qualified seniors and juniors. For fuller information students are referred to the Announcements of the School of Education of Teachers College and the Division of History, Economics, and Public Law.

EDUCATION

Education **A** is prerequisite to all other courses in Education. Education **B** should be taken parallel with other courses in the senior year.

†**A—Educational Psychology.** Professors THORNDIKE, NORSWORTHY, RUGER, Dr. WHITLEY, and Miss BRONNER. 4 points.

The entire class will meet on Th. at 11, throughout the year; and in sections during the second half-year Tu. and Th. at 10 (Sections II and III) or W. and F. at 10 (Section IV).

Any other section meeting at times stated in the Announcement of the School of Education of Teachers College may be substituted with the approval of the instructor.

Prerequisite: Philosophy **A1**.

Students who have previously had some work in Education may substitute Course 117-118 for Course **A**.

†**B—History and Principles of Education.** Professor MONROE and assistants. 6 points.

Lecture: Tu. at 11; conferences: Section V, Tu. and Th. at 10; Section VI, M. and F. at 3.

Students who have a satisfactory knowledge of the field covered by Education **B** may substitute Course 105-106 for Course **B**.

†**21-22—The Psychology of Childhood.** Professor NORSWORTHY and Dr. WHITLEY. 4 points.

Section I, Tu. and Th. at 10; Section II, at 2.

Prerequisite: Course **A**.

†**88—Educational Hygiene.** Professor WOOD. 3 points.

M., W., and F. at 2.

Courses 105-106, Philosophy of Education, Professor MACVANNEL; 108 and 108A, Educational Sociology, Professor SUZZALLO; 120, Applications of Analytic and Genetic Psychology to Education, Professor NORSWORTHY; 121-122, Educational Psychology (Advanced Course), Professor THORNDIKE; 187-188, Hygiene of Childhood and Adolescence, Professor WOOD, are open by permission of Teachers College and with the approval of the Committee on Instruction of Barnard College to specially qualified seniors. For further information students are referred to the Announcement of the School of Education of Teachers College.

ENGLISH

A1, A2—English Literature and Composition. Professor BALDWIN, Miss WEEKS, Mr. HALLER, Miss HOWARD, Miss LAPE, and Miss STURTEVANT. 6 points.

This course is introductory to the college study of English composition and English literature, and is prescribed for all freshmen. **A1** is primarily a course of composition; **A2**, a course of literature. **A4** is the corresponding second-term composition course for students entering college in February; **A3**, the corresponding literature course for these students in the first term of the following year.

Students intending to transfer to the School of Journalism take A1 (Section III) and B6 in their freshman year to complete their requirement of six points of composition for that year; A3 and B2 (Section III) in their sophomore year to complete their requirement of six points of literature for that year.

Sections I, II, III, and IV, Tu. Th., and S. at 10; Sections V and VI, Tu., Th., and S. at 11.

A3—English Literature. Professor HUBBARD. 3 points.

This course, identical with A2, is prescribed in the first term of sophomore year for students entering college in February of the previous year, and for all *sophomores intending to transfer to the School of Journalism*. Other students may take it only by direction of the department.

M., W., and F. at 10.

A4—English Composition. Mr. HALLER. 3 points.

This course, identical with A1, is prescribed in the second term of freshman year for students entering college in February. Other students may take it only by direction of the department.

M., W., and F. at 10.
